Post-Pandemic Social Studies Wayne Journell, 2021 COVID 19 offers a unique opportunity to transform the K 12 social studies curriculum but history suggests that changes to the formal curriculum will not come easily or automatically This book was conceived in the space between the dismantling of our old way of life and the anticipation of what comes next The authors in this volume leading voices in social studies education make the case that COVID 19 has exposed deficiencies in much of the traditional narrative found in textbooks and state curriculum standards and they offer guidance for how educators can use the pandemic to pursue a more justice oriented critical examination of contemporary society Divided into two sections this volume first focuses on how elementary and secondary educators might teach about the pandemic both as a contentious public issue and as a recent historical event The second section asks teachers to reconsider many long standing aspects of social studies teaching and learning from content and instructional approaches to testing Book Features Guidance on how to teach about the COVID 19 crisis as a recent controversial historical event Examples of teaching approaches and classroom projects that align with the C3 Framework Lessons about COVID 19 for use in K 12 classrooms as well as chapters on the history of pandemics and on how teachers can help students cope with death and grief A critical examination of the idea of American exceptionalism the role of race and class in U S society and fundamental practices within social studies education Contributors Sohyun An Varenka Serv n Arcos Brooke Blevins Lisa Brown Buchanan Yun Wen Chan Ya Fang Cheng Rebecca C Christ Christopher H Clark Kristen E Duncan Leonel P rez Exp sito Anna Falkner David Gerwin Maggie

Can We Live Together? Alain Touraine, David Macey, 2000 In this book a leading French social thinker grapples with the gap between the tendency toward globalization of economic relations and mass culture and the increasingly sectarian nature of our social identities as members of ethnic religious or national groups Though at first glance it might seem as if the answer to the question Can we live together is that we already do live together watching the same television programs buying the same clothes and even using the same language to communicate from one country to another the author argues that in important ways we are farther than ever from belonging to the same society or the same culture Our small societies are not gradually merging into one vast global society instead the simultaneously political territorial and cultural entities that we once called societies or countries are breaking up before our eyes in the wake of ethnic political and religious conflict The result is that we live together only to the extent that we make the same gestures and use the same objects we do not communicate with one another in a meaningful way or govern ourselves together What power can now reconcile a transnational economy with the disturbing reality of introverted communities The author argues against the idea that all we can do is agree on some social rules of mutual tolerance and respect for personal freedom and forgo the attempt to forge deeper bonds He argues instead that we can use a focus on the personal life project the construction of an active self or subject ultimately to form meaningful social and political institutions The book concludes by exploring how social institutions might be retooled to safeguard the development of the personal subject and communication between subjects and by sketching out what these new social institutions might look like in terms of social relations politics and education

An Education in 'Evil' Cathryn van Kessel,2019-04-15 This book asserts that engaging with divergent understandings about the nature of evil and how it functions can help those interested in education think through issues in curriculum pedagogy and beyond The author provokes thinking about and through the concept of evil in the spirit of thoughtful education as opposed to thoughtless schooling toward how we might live together in less harmful ways Although thinking about evil can be uncomfortable and troubling such inquiries help us

explore what sort of relations we want to have with others Analyzing our role in evil as humans as well as our responsibilities to counter the processes of evil present in our everyday lives opens up a potential to foster radical thought in and out of the classroom
