

NOTES ON A CONCEPTUAL FRAMEWORK FOR UNITARY SOCIAL WORK PRACTICE

Ron Baker*

["Plurality which is not reduced to unity is confusion; unity which does not depend on plurality is tyranny".

Pascal, *Pensees*, 1670.

"It is not enough to teach a man a speciality. Through it he may become a kind of useful machine but not a harmoniously developed personality. It is essential that the student acquire an understanding of and a lively feeling for values. He must acquire a vivid sense of the beautiful and of the morally good. Otherwise he — with his specialized knowledge — more closely resembles a well trained dog than a harmoniously developed person. He must learn to understand the motives of human beings, their illusions, and their sufferings in order to acquire a proper relationship to individual fellow-men and to the community".

Albert Einstein, on *Education for Independent Thought* — 1952.

"Theory without practice is sterile and practice without theory is blind".

Unknown (Often attributed to Karl Marx).

"Innovation springs from the collision between traditional assumptions and changing realities between theory and practice in a creatively irreverent mind capable of perceiving how poorly conventional wisdom fits the evolving world".

David Donnison, *Social Policy and Administration Revisited*.]

*Professor of Social Work, University of New South Wales, Sydney, Australia.

**For the purposes of this paper the terms 'unitary', 'generic' and 'integrated' are used synonymously.

in Western Society Gerald Handel, 2009-01-01 Social welfare has a three thousand year history in Western society This book offers a sociological framework that provides conceptual order to the countless details of that history while highlighting its essentials Social welfare in all its forms is based on one central concept help But there are many versions of help and multiple debates about those versions The outcomes of some debates have led to withholding help and these outcomes are an inescapable part of this domain in the past and in the present The major versions their development and the debates are carefully examined in this volume Social Welfare in Western Society argues that in history five basic concepts of help have emerged These five explored and developed are charity based on a relationship between private donors and recipients public welfare based on a relationship between the state and its recipients social insurance based on a relationship between the state and beneficiaries of its programs social service based on people skilled in interaction providing skill based time to their clients mutual aid groups sometimes misleadingly called self help groups whose members are simultaneously helpers and those helped There are multiple versions of each of these five concepts now usually referred to as social policy issues There are fierce disagreements about what is helpful and which supposed forms of help are harmful to the wider society The book concludes that major debates have centered and continue to center around these major issues Should the poor be helped or punished Who is to blame Do the poor have the same rights as other people Who should pay Who should decide What is the effect of receiving welfare on incentive to work Who should be helped This is a masterful text designed for professional and public reading Gerald Handel is professor emeritus of sociology at The City College and The Graduate Center City University of New York He is the author of Making a Life in Yorkville Experience and Meaning in the Life Course Narrative of an Urban Working Class Man editor of Childhood Socialization and co editor of The Psychosocial Interior of the Family all published by Transaction Publishers
