A Philosophical Look at Social Justice in Saint Augustine's City of God Maria Alejandra Madi, 2022-01-18 This book promotes a social justice approach that emphasizes social relations human desires and lifestyles demonstrating that Saint Augustine's thinking is still relevant today when reflecting on ethical choices that allow the permanence of social bonds It also investigates the conceptual underpinnings of social justice in modern and contemporary political philosophy drawing on ideas from Machiavelli Arendt Polanyi and Foucault as well as Western Marxist and Postmodern perspectives to emphasize the significance of Augustine's ethics The complexity of 21st century social and economic problems necessitates a thorough reworking of conceptual political philosophy outlooks in a context of unprecedented political and environmental concerns

This book will result in significant progress toward a philosophy of social justice by renewing the relationship between political life and ethical choices oriented to social well being To address social justice we must be able to reinterpret social challenges from new perspectives The dialogue between Saint Augustine and relevant political philosophers allows for a discussion that may lead to the development of new frameworks and answers This book certainly prepares the reader for current real world social justice debates Religion and Social Justice S. Thakur,1996-10-04 This book is a philosophical examination of the relationship between religion and social justice Its main thesis is that since the primary purpose of religion is the moral and spiritual transformation of human nature it ought not to be construed as a direct instrument of social justice on earth as it is by Liberation theologians for example as well as by many liberal Christians and Jews Indirectly however religion may well be a pre condition of social justice For it can be argued that without the counteracting effects of the moral and spiritual values prescribed by religion the liberal vision of individual rights and social justice may be self defeating Humanity is best served if this liberal vision is counterbalanced by the completely contrary utopia enshrined in the biblical idea of the kingdom of God and its equivalents in the other great religions of the world **The New Criminal Justice Thinking** Sharon Dolovich,Alexandra Natapoff,2018-11-06 A vital collection for reforming criminal justice After five decades of punitive expansion the entire U S criminal justice system mass incarceration the War on Drugs police practices the treatment of juveniles and the mentally ill glaring racial disparity the death penalty and more faces challenging questions What exactly is criminal justice How much of it is a system of law and how much is a collection of situational social practices What roles do the Constitution and the Supreme Court play How do race and gender shape outcomes How does change happen and what changes or adaptations should be pursued The New Criminal Justice Thinking addresses the challenges of this historic moment by asking essential theoretical and practical questions about how the criminal system operates In this thorough and thoughtful volume scholars from across the disciplines of legal theory sociology criminology Critical Race Theory and organizational theory offer crucial insights into how the criminal system works in both theory and practice By engaging both classic issues and new understandings this volume offers a comprehensive framework for thinking about the modern justice system For those interested in criminal law and justice The New Criminal Justice Thinking offers a profound discussion of the complexities of our deeply flawed criminal justice system complexities that neither legal theory nor social science can answer alone **The Holy See, Social Justice, and International Trade Law** Rev. Dr. Alphonsus Ihuoma,2018-06-30 The Holy See Social Justice and International Trade Law Assessing the Social Mission of the Catholic Church in the GATT WTO System highlights the uniqueness of the Catholic Church as the foremost institution in the world that can confront issues in world trade that affect the common good The distinguished author Rev Dr Alphonsus Ihuoma provides a superbly broad and deep examination that is both scholarly and practical of the mission of the Catholic Church in the world as one that centers on the temporal and eternal needs of humanity His discussion treats thoughtfully the mediatory

role of the church in world affairs and argues persuasively that the church has been engaged in this role since its very beginning even before nations embraced organized politics two thousand years ago This remarkable book is a great tool for any reader seeking to know more about the unique position of the church in world affairs especially in the GATT WTO system The book rightly lauds the church's achievements in history But it equally and rightly argues that the church must do more to address present challenges in the world trading system Readers will be enlightened by the treatment of the failures of the GATT WTO system in pursuing the objectives for which it was established the church's efforts to pursue vital related objectives and the need for her to do more Social Justice in Twentieth-Century Europe Martin Conway, Camilo

Erlichman, 2024-03-07 Social justice has returned to the heart of political debate in present day Europe But what does it mean in different national histories and political regimes and how has this changed over time This book provides the first historical account of the evolution of notions of social justice across Europe since the late nineteenth century Written by an international team of leading historians the book analyses the often divergent ways in which political movements state institutions intellectual groups and social organisations have understood and sought to achieve social justice Conceived as an emphatically European analysis covering both the eastern and western halves of the continent Social Justice in Twentieth Century Europe demonstrates that no political movement ever held exclusive ownership of the meaning of social justice Conversely its definition has always been strongly contested between those who would define it in terms of equality of conditions or of opportunity the security provided by state authority or the freedom of personal initiative the individual rights of a liberal order or the social solidarities of class nation confession or Volk **Social Dimensions of Soviet**
