Social Engineering in Family Matters Burton Mindick,1986 Family Matters Nkiru Uwechia Nzegwu,2012-02-01

Prior to European colonialism Igboland a region in Nigeria was a nonpatriarchal nongendered society governed by separate but interdependent political systems for men and women In the last one hundred fifty years the Igbo family has undergone vast structural changes in response to a barrage of cultural forces Critically rereading social practices and oral and written histories of Igbo women and the society Nkiru Uwechia Nzegwu demonstrates how colonial laws edicts and judicial institutions facilitated the creation of gender inequality in Igbo society Nzegwu exposes the unlikely convergence of Western feminist and African male judges assumptions about traditional African values where women are subordinate and oppressed Instead she offers a conception of equality based on historical Igbo family structures and practices that challenges the epistemological and ontological bases of Western feminist inquiry *Family Matters* Alfred White Franklin,2013-10-22

Rebellion, Rascals, and Revenue Michael Keen,Joel Slemrod,2022-05-17 An engaging and enlightening account of taxation told through lively dramatic and sometimes ludicrous stories drawn from around the world and across the ages Governments have always struggled to tax in ways that are effective and tolerably fair Sometimes they fail grotesquely as when in 1898 the British ignited a rebellion in Sierra Leone by imposing a tax on huts and in repressing it ended up burning the very huts they intended to tax Sometimes they succeed astonishingly as when in eighteenth century Britain a cut in the tax on tea massively increased revenue In this entertaining book two leading authorities on taxation Michael Keen and Joel Slemrod provide a fascinating and informative tour through these and many other episodes in tax history both preposterous and dramatic from the plundering described by Herodotus and an Incan tax payable in lice to the misremembered Boston Tea Party and the scandals of the Panama Papers Along the way readers meet a colorful cast of tax rascals and even a few tax heroes While it is hard to fathom the inspiration behind such taxes as one on ships that tended to make them sink Keen and Slemrod show that yesterday s tax systems have more in common with ours than we may think Georgian England s window tax now seems quaint but was an ingenious way of judging wealth unobtrusively And Tsar Peter

the Great s tax on beards aimed to induce the nobility to shave much like today s carbon taxes aim to slow global warming Rebellion Rascals and Revenue is a surprising and one of a kind account of how history illuminates the perennial challenges and timeless principles of taxation and how the past holds clues to solving the tax problems of today **English Family**

the Sustainable Development Agenda Stephanie E.L. Bengtsson,Bilal Barakat,Raya Muttarak,2018-03-05 The Role of Education in Enabling the Sustainable Development Agenda explores the relationship between education and other key sectors of development in the context of the new global Sustainable Development Goals SDG agenda While it is widely understood that there is a positive relationship between education and other dimensions of development and populations around the world show a clear desire for more and better education education remains an under financed and under prioritised sector within development When education does make it onto the agenda investment is usually diverted towards increasing access to formal schooling without focusing on the intrinsic value of education as a tool for development within the international development community more broadly The authors explore these tensions through a review of literature from a range of disciplines providing a clearer picture of the relationship between education and other development sectors The book challenges silo thinking in the SDGs by exploring how achieving the SDG education targets can be expected to support or hinder progress towards other targets and vice versa Drawing on examples from both low and high income countries the book demonstrates how good education functions as an enabling right impacting positively on many other areas The book s scope ranges across education and development studies economics geography sociology and environmental studies and will be of interest to any researchers and students with an interest in education and the SDGs **Legal**

Recognition of Non-Conjugal Families Nausica Palazzo,2021-02-25 This book argues that insufficient recognition of new families is a legal problem that needs fixing in light of recent evolutions in family patterns and normative conceptions of family People increasingly invest in relationships falling outside the model of the marital family such as non conjugal unions of friends or relatives polyamorous relationships and various religious based families Despite this Western jurisdictions retain the marital family as the relevant basis for allocating family law benefits rights and obligations Part I of the book illustrates

recent evolutions in family patterns and norms and explores how law can accommodate multiple family grids without legal recognition involving normalisation Part II focuses on courtroom litigation on the basis that courts nowadays are central avenues of social change It takes non conjugal families as a case study and provides an analysis of the most compelling argumentative strategies that non conjugal families can mobilise to pursue legal recognition in Canada and the United States and within the systems of the European Convention of Human Rights and the European Union Through its comparative interdisciplinary and critical legal method the book provides scholars activists and policymakers with conceptual tools to tackle the current invisibility of new families Further by advancing legal arguments to enhance the protection of non conjugal families in courtrooms the book illuminates the different approaches jurisdictions are likely to take and the hindrances thereof to overcome and debunk stereotypes associated with proper familyhood
