Social Psychology Of Collective Action Identity Injustice And Gender:

The Social Psychology of Collective Action Sara Breinlinger, Caroline Kelly, 2014-04-23 In recent years there has been a growth of single issue campaigns in western democracies and a proliferation of groups attempting to exert political influence and achieve social change In this context it is important to consider why individuals do or don't get involved in collective action for example in the trade union movement and the women's movement Social psychologists have an important contribution to make in addressing this question The social psychological approach directly concerns the relationship between the individual and society and a number of theories have been developed in the field particularly by contemporary European researchers Yet surprisingly there has never been until now a concerted attempt to bring these various strands of research together in a coherent detailed presentation of the social psychological approach to collective action The authors of *The Social Psychology of Collective Action* review and integrate a number of theories developed in this field as well as presenting their own original research and data The research discussed in the book ranges over a number of different contexts with a particular focus on women's groups organizing around issues of gender Questions addressed include why do women get involved in women's groups What part is played by experiences of discrimination in the family and in the workplace What are the benefits of group involvement How are feminist activists perceived by others who choose not to get involved Findings from questionnaires and interviews are integrated with contemporary social psychological theory especially social identity theory

European Review of Social Psychology Wolfgang Stroebe, Miles Hewstone, 2005-02-24 The *European Review of Social Psychology* is an annual series that reflects the dynamism of social psychology in Europe and has been widely accepted as one of the most important international series in social psychology The series is open to authors from all nations and its primary purpose is to further the international exchange of ideas by providing an outlet for substantial accounts of theoretical and empirical work With the help of an editorial board consisting of senior scholars from various European countries Australasia and North America the editors invite outstanding researchers to contribute to these volumes Invitations are based either on suggestions from editorial board members or made in response to proposals submitted to the editors The emphasis of these contributions is on critical assessment of major areas of research and of substantial individual programmes of research as well as on topics and initiatives of contemporary interest and originality

Social Movements that Care Felipe G. Santos, 2024-12-14 The Platform of Those Affected by Mortgages PAH has left a crucial mark in the history of Spanish social movements by advocating for the over 700 000 families that have been evicted since its inception in 2009 This book explores how the PAH has blocked thousands of evictions through civil resistance prevented many more through negotiations with banks and rehoused thousands of evicted families in apartments recuperated from banks and vulture funds Through the framework of the Politics of Care Felipe G Santos explores the emotional identity and participatory challenges that hindered the mobilization of those affected by mortgages The book also reveals how empathy from a group of people unaffected by mortgage issues sparked mobilization and how care relationships empowered those facing eviction to lead the fight for housing rights

Human Rights as Social Representations Willem Doise, 2003-08-29 There are currently a large number of historical philosophical political and judicial studies on human rights However a thorough social psychological analysis of their intervention in social relations extending across national and cultural boundaries has not been available This book fills that gap providing a detailed examination of the foundations of human rights principles the sources of their universality and their limitations Using the tools of social representation theory Willem Doise examines human rights as guiding ideas which can provide institutionalized standards He then explores how these standards can be used to evaluate the relationship of individuals with authorities and with each other Essential reading for scholars and students studying social representation theory and human rights it will also be of great interest to those working more generally in the fields of psychology sociology and anthropology
