those same lands in many cases for millennia Muir argued for the preservation of wild sanctuaries that would offer spiritual enlightenment to the conquerors not to the conquered Indigenous peoples who had once lived there Somehow he wrote they seemed to have no right place in the landscape Cast Out of Eden tells this neglected part of Muir s story from Lowland Scotland and the Wisconsin frontier to the Sierra Nevada s granite heights and Alaska s glacial fjords and his take on the tribal nations he encountered and embrace of an ethos that forced those tribes from their homelands Although Muir questioned and worked against Euro Americans distrust of wild spaces and deep seated desire to tame and exploit them his view excluded Native Americans as fallen peoples who stained the wilderness s pristine sanctity Fortunately in a transformation that a resurrected and updated Muir might approve this long standing injustice is beginning to be undone as Indigenous nations and the federal government work together to ensure that quintessentially American lands from Bears Ears to Yosemite serve all Americans equally

**From Superman to Social Realism** Helle Strandgaard Jensen,2017-03-31 Can children s media be a source of education and empowerment Or is the commercial media market a threat to their sense of social and democratic values Such questions about the appropriateness of children s media consumption have recurred in public debates throughout the twentieth century From Superman to Social Realism provides an exciting new approach to the study of children s media and childhood history drawing on theories of cross media consumption and transnational history Based on extensive Scandinavian source material it explores public debates about children s media between 1945 and 1985 Readers are taken on a fascinating journey through debates about superheroes in the 1950s politicization of children s media in the 1960s and about television and social realism in the 1980s Arguments are firmly contextualized in Scandinavian childhood and welfare state history an approach that demonstrates why professional and political groups have perceived children s media as the key to the enculturation of future generations [Canadiana](#) ,1991 [Concealed Weapon Laws of the Early Republic](#) Clayton E. Cramer,1999-08-30 Cramer s work examines the motivations and legislative history behind the nation s first laws regulating the carrying of concealed deadly weapons and establishes a previously unexplored link between these laws and efforts to suppress dueling in the southern back country Earlier attempts to analyze these laws focused upon efforts to maintain slavery by severely restricting the rights of free blacks if free blacks could not possess arms and lacked other basic rights slaves would be less inclined to seek their freedom Cramer rejects such thinking by demonstrating that the concealed weapon laws of the early republic were not racially motivated He further supports the work of other scholars who have lately examined the role of Scots Irish immigrants in creating a distinctive southern back country culture of honor violence including dueling and brawling It was the attempt to control such violence Cramer argues that led to the concealed weapons laws Thus rather than considering gun control laws primarily as legal or constitutional history this study starts from a cultural and historical viewpoint Southern state legislatures sought to improve the morals of their back country population through increasingly severe punishments for dueling When judges and juries regularly refused to convict duelists these

legislatures created extrajudicial punishments by requiring elected and appointed officials as well as lawyers to swear oaths of non participation in dueling Young men obsessed with honor and reluctant to perjure themselves for fear of damaging their public reputation soon took to carrying Bowie knives and handguns with which to kill those who insulted them a perfectly honorable action to much of the population The state legislatures then severely regulated carrying of concealed deadly weapons in the hope of suppressing the bloody results of what had been until then an accepted practice
