## **Social Work Practice In Child Welfare:**

Child Welfare Kathryn Krase, Tobi DeLong-Hamilton, 2020-11-23 *Child Welfare Preparing Social Workers for Practice in the Field* is a comprehensive text for child welfare courses taught from a social work perspective. This textbook provides a single source for all material necessary for a contextual child welfare course. As well as combining history, theory, and practice, the authors integrate different practice perspectives to teach social workers how to engage children and families at the micro, mezzo, and macro levels. Covering both broad issues such as child welfare, child maltreatment, and responses to child maltreatment and current issues in social care including mandated reporting and evidence-based policy, prevention, and preservation, the material is designed to meet the needs of social work students entering the child welfare workforce. *Child Welfare* provides students in social work courses at both the undergraduate and graduate levels with a single source for all material necessary to successfully navigate their studies and careers.

**Social Work Practice with Families and Children** Anthony Maluccio, Barbara Pine, Elizabeth M. Tracy, 2002-09-11 This book emphasizes family-centered social network and school-based interventions in the preparation of social workers for direct and indirect practice with clients from vulnerable populations, especially the poor, people of color, and recent immigrant groups. With an eye to recent changes in social work practice and service delivery, including the impact of welfare reform and managed care on vulnerable families and children, *Social Work Practice with Families and Children* helps social work students and practitioners understand the increasingly complex needs of their clients. Three valuable appendixes include information about tools and instruments to support practice, child welfare resource centers, and electronic resources pertaining to the field.

NASW Standards for Social Work Practice in Child Welfare National Association of Social Workers, 2013 These standards were developed to broadly define the scope of services that child welfare social workers shall provide that administrators should support and that children, youths, and families should expect. The standards are designed to enhance awareness of the skills, knowledge, values, methods, and sensitivities social workers need to work effectively within the child welfare system. Goals of the standards.
