Socialising Public Ownership Martyn Sloman, 1978-06-17 *Reclaiming Public Ownership* Professor Andrew Cumbers, 2012-09-13 Winner of the Myrdal Prize for Evolutionary Political Economy The last few years have seen the spectacular failure of market fundamentalism in Europe and the US with a seemingly never ending spate of corporate scandals and financial crises As the environmental limits and socially destructive tendencies of the current profit driven economic model become daily more self evident there is a growing demand for a fairer economic alternative as evidenced by the mounting campaigns against global finance and the politics of austerity *Reclaiming Public Ownership* tackles these issues head on going beyond traditional leftist arguments about the relative merits of free markets and central planning to present a radical new conception of public ownership framed around economic democracy and public participation in economic decision making Cumbers argues that a reconstituted public ownership is central to the creation of a more just and sustainable society This book is a timely reconsideration of a long standing but essential topic *Socialism, Social Ownership and Social Justice* Leslie J. Macfarlane, 2016-07-27 *Socialism Social Ownership and Social Justice* is concerned with the emergence in Europe over the centuries of dreams and aspirations amongst the poor and weak for new societies of justice and equality based on common ownership and common sharing It ranges from the Greek legendary ideal of a simple communal golden age of equals and the dark reality of Spartan perverted communalism to the collapse of Soviet communism and the abandonment by West European socialist parties of their commitment to transform ruling class dominated capitalist societies into democratic egalitarian socialist societies ***The Politics of Privatisation in Western Europe*** John Vickers, 2005-06-28 This title available in eBook format Click here for more information Visit our eBookstore at www.ebookstore.tandf.co.uk ***Political Economy and the Labour Party*** Noel W. Social Attitudes in Contemporary China Chen Yu, Fang Wei, Liqing Li, Paul Morrissey, Nie Chen, 2016-02-12 Unlike many studies of social attitudes which are based on large scale quantitative surveys or which focus on the attitude of elites this book considers the views of ordinary people and is based on in depth qualitative interviews This approach results in rich nuanced data and is especially helpful for highlighting ambivalent attitudes where respondents may hold positive and negative views on a particular topic views which are liable to change The book examines attitudes on a range of subjects of current importance including views on nationalism and internationalism housing preferences and educational ambitions Throughout the book explores how far attitudes are influenced by traditional Chinese values or by the neo liberal outlook fostered by recent reforms and concludes that materialism and individualism have increased

Paterson, 2013-07-23 First published in 1993 This title is the product of a conference designed to throw light on some central questions about the phase of programmatic renewal from the 1950s to the then present day The evidence presented in this volume pursues to demonstrate the existence of a European wave of social democratic programmatic renewal effort during the 1980s the sweep of which the author argues being broader than the previous renewal wave in the 1950s **Privatisation against the European Social Model** Marica Frangakis, Christoph Hermann, Károly Lóránt, 2009-11-05 This book addresses the EU as powerful driver of the wave of privatizations in the network industries and public services since the early 1990s Based on theoretical arguments and empirical studies it examines the impact of these policies on what is regarded as the normative pillars of the European Social Model Ideas and Policies Under Labour, 1945-1951 Martin Francis, 1997 Francis examines the relationship between socialist ideas and the policies of the 1945-51 Labour government insisting that Labour ministers applied specifically socialist precepts to the exercise of power during this period **The City of London and Social Democracy** Aled Davies, 2017-06-15 The City of London and Social Democracy examines the relationship between the financial sector and the state in post war Britain The key argument made in Aled Davies's study is that changes to the financial sector during the 1960s and 1970s undermined the state's capacity to sustain and develop a modern industrial economy Social democratic economic strategy was constrained by the institutionalization of investment in pension and insurance funds the fragmentation of the nation's oligopolistic domestic banking system the emergence of an unregulated international capital

market based in London and the breakdown of the Bretton Woods international monetary system Novel attempts to reconfigure social democratic economic strategy in response to these changes ultimately proved unsuccessful Meanwhile the assumption that national prosperity could only be achieved through industrial growth was challenged by a reconceptualization of Britain as a fundamentally financial and commercial nation an idea that was successfully promoted by the City itself These findings assert the need to place the Thatcher governments subsequent neoliberal economic revolution which saw the acceleration of deindustrialization and the triumph of the City of London as a pre eminent international financial centre within a broader material institutional and cultural context previously underappreciated by historians
