The Personal and the Political (RLE Social Theory) Paul Halmos, 2014-08-21 Are human misery poverty and despair a result of personal inadequacy or social injustice Therefore is the solution to these problems psychotherapy or political action In one of the most important books on social work for a decade Paul Halmos tries to resolve a dilemma which many social workers experience acutely the conflict between a desire to help those in need and a fear that by doing so they merely support a political system which should itself be changed Such a dilemma was highlighted during the sixties when casework and personal counselling became discredited by the rediscovery of widespread poverty and inequality in western society To many the only solution seemed to be urgent and radical political action For Professor Halmos the realities are more complex an exclusive preoccupation with either personal or political solutions is unlikely to prove fruitful what is needed is a dual

sensitivity and balance Yet for the author it is the political solution which carries within it the greater risk and he warns of the dangers inherent in the total politicization of social concerns He argues that social action can become political action and ultimately political control **Publication of the American Sociological Society** American Sociological Association,1929

Proceedings of the International Conference on Cultural Policy and Sustainable Development (ICPSD 2024) Abdul Kadir Jaelani,Irwansyah Irwansyah,Fokke Fernhout,Adolfo Antonio Paolini,Mohd Rizal Palil,Hilaire Tegnán,Okid Parama Astirin,Sutarno Sutarno,Patricia Covarrubia,Bobur Sobirov,Robbi Rahim,2024-12-23 This is an open access book Cultural

policy plays a crucial role in shaping societies influencing cultural expressions and advancing sustainable development. Laws and regulations related to culture both at the national and international levels play a key role in regulating and protecting cultural heritage and supporting a healthy cultural ecosystem. The First International Conference on Cultural Policy and Sustainable Development (ICPSD) aims to explore the impact of cultural policies in democratic and nondemocratic regimes. This conference will serve as a platform for scholars, policymakers, and practitioners to exchange ideas, share experiences, and discuss strategies to promote cultural diversity, creativity, and sustainability in different political contexts. Internationally, various agreements such as the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions underscore the importance of cultural policies in supporting sustainable development and promoting cultural diversity. UNESCO Convention 2005 n d At the national level, laws such as the Cultural Law in Indonesia establish a framework for the protection and development of culture as well as provide a legal basis for inclusive and sustainable cultural policy making. Law Number 5 of 2017 concerning the Advancement of Culture n d In democratic regimes, cultural policies are often developed through participatory processes reflecting the values and aspirations of diverse communities. These policies aim to support cultural expression, protect cultural heritage, and promote cultural rights, thereby contributing to social cohesion and inclusive development. However, challenges such as funding limitations, cultural commodification, and the impact of digital technology require ongoing dialogue and innovation in policy approaches. On the other hand, cultural policies in nondemocratic regimes are often used as tools for political control, censorship, and the promotion of state ideology. Nevertheless, cultural practitioners and activists in these contexts demonstrate resilience and creativity in navigating restrictive environments, often using digital technology to amplify their voices and preserve cultural identity. In various countries, existing legislation greatly influences the implementation of cultural policies and sustainable development. In Indonesia, for example, Law Number 5 of 2017 concerning Culture serves as the main foundation for the development of sustainable cultural policies. This law promotes the protection, preservation, development, utilization, and fostering of culture as an integral part of national development. Law Number 5 of 2017 concerning the Advancement of Culture n d Cultural Policy and Sustainable Development are interrelated concepts and are the main focus of this conference, where appropriate cultural policies can strengthen sustainable development, reinforce cultural identity, and improve the quality of life for communities. In the context of the conference theme, Cultural Policies in Democratic and Nondemocratic Regimes, it is important to consider the differences in cultural policy approaches between these two types of regimes. This forum aims to facilitate communication among Law Faculty Academics worldwide with the agenda of the 1st International Conference on Cultural Policy and Sustainable Development (ICPSD) Cultural Policies in Democratic and Nondemocratic Regimes. A Modern Guide to Citizen's Basic Income Malcolm Torry, 2020-06-26. Debate on the desirability, feasibility, and implementation of a Citizen's Basic Income: an unconditional, nonwithdrawable, and regular income for every individual is increasingly

widespread among academics policymakers and the general public There are now numerous introductory books on the subject and others on particular aspects of it This book provides something new It studies the Citizen s Basic Income proposal from a variety of different disciplinary perspectives the economics of Citizen s Basic Income the sociology of Citizen s Basic Income the politics of Citizen s Basic Income and so on Each chapter discusses the academic discipline and relevant aspects of the debate and asks how the discipline enhances our understanding and how the Citizen s Basic Income debate might contribute to the academic discipline Social-Cultural Anthropology George Allan Phiri,2009-09-01 Effective communication with the African society in the field of missions church planting and social development work has been and continues to be a great challenge particularly to people from western cultural and language orientation Africans are a we rather than I and a depended on rather than independent of society The worldview of a traditional African in terms of society relationships and communication is communal Certainly the African perception of communalism affects how they communicate with the people of different cultural orientation Africa has several cultures and people differ in their communication depending on their cultural orientation However there are universal African cultures that act as a framework for understanding key aspects of communication with Africans for successful missions church planting and social development work This book therefore provides a strategy of understanding communication with the African society The discussions in this book provide readers with different cultural orientations unique perception of the African society as s he may be planning to communicate with the African society for missions church planting and social development work even doing humanitarian ministry in African society Although literacy levels have improved tremendously in most African countries most of Africa is not a reading society It is imperative to understand that most Africans still communicate orally and are not time conscious Hence effective communication in African societies ought to be based on storytelling rather than literature distribution although this is in transition In fact Africans are oratory and good listeners Thus this book provides an understanding to people of different cultural orientations when they plan to communicate with the people in Africa
