Tihanov,2022-07-02 The volume features the work of leading scholars from the US UK Germany China Spain and Russia and presents an important contribution to current debates on world literature The contributions discuss various facets of the historically changing role and status of language in the construction of notions of universality and locality of difference foreignness and openness they explore the relationship between world literature and bilingualism supranational languages dialects and linguistic inbetweenness They also examine the larger social and political stakes behind both foundational and more recent attempts to articulate ideas of world literature Mapping the space between philology anthropology and ecohumanities the essays in this volume approach world literature with sophisticated methodological toolkits and open up new opportunities for engaging with this important discursive framework Disciplines of Modernity Saurabh Dube,2022-10-14 Scrupulously based in anthropology and history and drawing on social theory and critical thought this book revisits the disciplines archives and subjects of modernity There are at least three interleaving emphases here To begin with the work rethinks institutionalized formations of anthropology and history together with archives at large as themselves intimating disciplines of modernity Understood in the widest senses of the terms these disciplines are constitutively contradictory Moreover the study interrupts familiar projections of modern subjects as molded a priori by a disenchanted calculus of interest and reason It tracks instead the affective embodied and immanent attributes of our varied worlds as formative of subjects of modernity sown into their substance and spirit Finally running through the book is a querying of entitlement and privilege that underlie social terrains and their scholarly apprehensions articulating at once distinct elites pervasive plutocracies and modern scholasticisms
