Intelligence and Big Data Analytics Save the Future of Psychiatry? A. George Awad,2023-04-26 This book is the second

of the series about the imperatives for the search for new psychiatry As stated in my recent 2021 book about The Search for New Psychiatry current psychiatric practices have failed many patients and their families their doctors and the society at large That was the end of the 2021 book and the beginning of this book as a follow up in search for pathways to a new and more effective science based practice Based on its major contributions to the recent successful and expedient development of the Covid 19 vaccines I am proposing the same pathway of using the new revolution in informatics as the way to save and secure the future of psychiatry and that is what I am recommending in this book reaping the benefit of AI and Big Data Analytics but with a wide open eye on its limits reliability risks unforeseen or unintentional harms Part Two of the book deals with a number of perineal and also new challenges that continue to require better understanding and resolution Among the phenomenological and nosological challenges the recent development by Neurology of its subspeciality of Behavioral Neurology in competition to Neuropsychiatry is reviewed in terms of an opportunity for integration of the tow subspecialities towards the creation of a new third field of Clinical Neurosciences Other challenges included are The Subjective Objective Dichotomy Lunacy and the Moon reflections on the interactions of the brain and environment and Woke Psychiatry what is it Several other clinical challenges include The Past is Coming Back as The Future The Rise Fall and Rise Again of Psychedelics Loneliness as the silent disorder and several other challenges At the end a postscript has been hastily added in memory of a close friend a pioneering psychopharmacologist but above all an empathic humanist Professor Thomas Arthur Ban or as he always preferred Tom

Primary Care Mental Health in Older People Carlos Augusto de Mendonça Lima, Gabriel Ivbijaro, 2019-08-07 This book is a practical resource that will support the delivery of holistic mental health interventions in the primary and community care setting for older people Primary care delivery is discussed in relation to both functional mental health problems such as anxiety depression and psychotic and personality disorders and acquired organic mental disorders of old age such as dementia cognitive impairments and delirium Careful consideration is paid to the complex relationship between mental and somatic health problems as well as the impacts of multimorbidity and polypharmacy Further topics include for example epidemiology wider determinants of health different care models history taking neurocognitive and capacity assessment and pharmacological psychological and physical interventions The wider goals of the book are to support the development of community resilience and self care in older people to promote universal access and equity for older people in order to enable them to achieve or recover the highest attainable standard of health regardless of age gender or social position and to promote pathways to care for older people with mental health problems respecting their autonomy independence human rights and the importance of the life course approach This book will be an invaluable resource for all professionals who work with older adults with mental health problems and those training in these fields including physicians psychiatrists family doctors geriatricians general practitioners nurses psychologists neurologists occupational therapists social workers support workers and community health and social care workers

Assisting Seniors at Home Gretchen

Mary Rose, 2020 Most families in need of assistance for senior caregiving have two questions Can you please help us How do we go about this We don't even know where to start This is the overshadowing climate that exists until a navigational chart is presented Assisting Seniors at Home A Planning Guide for Families and Caregivers is designed to harmonize the unique perspectives and roles of the three entities involved the seniors the family and hired caregivers Each role is described with specific intervention priorities for our aging family members Within this guide there are two skill level indicators one for the general aging population and another for those with dementia Each provide a clear description of specific needs as changes occur This is the compass by which all family members may intercede proactively to bring seniors from early intervention to the final stages of hospice care The skill level indicator is the most valuable element as it designates the amount of care needed how to establish a care plan and when to make necessary changes In summary this adds up to effective in home care inclusive of home modifications and safety as a top priority for all involved
