

Chapter 1

Of States and of Civil Societies

The state has captured the imagination of political theorists, because it is central to many of the questions that have been asked by them since the time of Plato. Questions such as—what is justice? What are the institutional arrangements which will ensure good life? How can the dignity and the self-respect of human beings be assured? How can political morality be realized?—invariably refer back to the nature and the form of the state as the codification of political power. The state has been the privileged theoretical object of political theory for a variety of reasons. For one, since classical political theory has been preoccupied with the nature of the good life, it has sought to realize that vision in institutional arrangements—with the state being at the core of these arrangements—which are necessary for human beings to flourish, for their needs to be met, and for their capacities to be realized. The state, without exception emerges as the principal corporate actor in political, cultural, social and economic narratives of societies. Consequently, any issue raised anywhere, invariably returns to the state to provide an explanation for that particular phenomenon.

Yet the very centrality of the state begs the question as to how the state itself can be explained. What in other words, is the reference point for the understanding of the state? Many theorists circumvent this question by focusing upon the administrative, coercive and ideological functions of the state. In effect they treat the state as governance. But this still does not explain why certain states behave the way they do. For, if every state possesses ultimate power and exercises a set of definite functions, then each state should be like any other. But states are dissimilar, they differ in the way they behave and in the way they accumulate, articulate and exercise political power. It is obvious, that the reference point for understanding the state is outside the domain of the institution

NGOs, Civil Society, and the Public Sphere Sabine Lang, 2013 This book investigates how nongovernmental organizations can become stronger advocates for citizens and better representatives of their interests Sabine Lang analyzes the choices that NGOs face in their work for policy change between working in institutional settings and practicing public advocacy that incorporates constituents voices Civil Society and the Party-state in Zimbabwe Zenzo Moyo, 2024-08-21 The book utilises Gramsci s concepts of hegemony counter hegemony organic intellectuals and integral state to interrogate how modes of engagement between the state and civil society have contributed to a polarised polity in Zimbabwe and in turn how this has impacted democratisation processes This was achieved by analysing intra civil society interactions and state

civil society relations which established deep polarised relationships that can be traced back to the liberation struggle. It also interrogates ideologies that drive these polarised relations and how together with material benefits from donors and the party state these relations impact ordinary people's modes of existence. One of the arguments that emerge from the book is that political polarisation in Zimbabwe has now morphed into an established political culture that has played a huge role in the retardation of democratic struggles. It uses ideas of entangled modernities and travelling theory to cast doubt on the belief that civil society is the missing key in the democratisation of developing countries.

Civil Society in the Global South Palash Kamruzzaman, 2018-12-07 In recent years civil society has been seen as a key route for democracy promotion and solving development problems in low income countries. However the very concept of civil society is deeply rooted in European traditions and values. In pursuing civil society reform in non Western countries many scholars along with well meaning international agencies and donor organisations fail to account for non Western values and historical experiences. *Civil Society in the Global South* seeks to redress this balance by offering diverse accounts of civil society from the global South authored by scholars and researchers who are reflecting on their observations of civil society in their own countries. The countries studied in the volume range from across Africa Latin America Asia and the Middle East to give a rich account of how countries from the global south conceptualise and construct civil society. The book demonstrates how local conditions are often unsuited to the ideal type of civil society as delineated in Western values for instance in cases where numerous political racial and ethnic sub groups are fighting for autonomy. By disentangling local contexts of countries from across the global South this book demonstrates that it is important to view civil society through the lens of local conditions rather than viewing it as something that needs to be discovered or manufactured in non Western societies. *Civil Society in the Global South* will be particularly useful to high level students and scholars within development studies sociology anthropology social policy politics international relations and human geography.

Civil Society and Democratization in India Sarbeswar Sahoo, 2013-04-26 Developing a distinctive theoretical framework on civil society this book examines how Non Governmental Organizations NGOs contribute towards democratization in India and what conditions facilitate or inhibit their contribution. It assesses three different kinds of politics within civil society liberal pluralist neo Marxist and communitarian which have had different implications in relation to democratization. By making use of in depth empirical analysis and comparative case studies of three developmental NGOs that work among the tribal communities in the socio historical context of south Rajasthan the book shows that civil society is not necessarily a democratizing force but that it can have contradictory consequences in relation to democratization. It discusses how the democratic effect of civil society is not a result of the stock of social capital in the community but is contingent upon the kinds of ideologies and interests that are present or ascendant not just within the institutions of civil society but also within the state. The book delivers new insights on NGOs democratization civil society the state political society tribal politics politics of Hindu Nationalism international development

aid and grassroots social movements in India It enables readers to understand better the multifaceted nature of civil society its relationship with the state and its implications for development and democratization

Beyond Civil Society Sonia E. Alvarez, Jeffrey W. Rubin, Millie Thayer, Gianpaolo Baiocchi, Agustín Laó-Montes, 2017-05-18 The contributors to *Beyond Civil Society* argue that the conventional distinction between civic and uncivic protest and between activism in institutions and in the streets does not accurately describe the complex interactions of forms and locations of activism characteristic of twenty first century Latin America They show that most contemporary political activism in the region relies upon both confrontational collective action and civic participation at different moments Operating within fluid dynamic and heterogeneous fields of contestation activists have not been contained by governments or conventional political categories but rather have overflowed their boundaries opening new democratic spaces or extending existing ones in the process These essays offer fresh insight into how the politics of activism participation and protest are manifest in Latin America today while providing a new conceptual language and an interpretive framework for examining issues that are critical for the future of the region and beyond Contributors Sonia E Alvarez Kiran Asher Leonardo Avritzer Gianpaolo Baiocchi Andrea Cornwall Graciela DiMarco Arturo Escobar Raphael Hoetmer Benjamin Junge Luis E Lander Agustín La Montes Margarita Lopez Maya Jos Antonio Lucero Graciela Monteagudo Amalia Pallares Jeffrey W Rubin Ana Claudia Teixeira Millie Thayer

Corporate Social Responsibility and Civil Society in India Nandini Deo, 2024-09-10 Corporate social responsibility CSR or billionaire philanthropy is like a Rorschach test the same act can look very different depending on how we understand its intentions and its consequences In this book the author examines the politics of CSR in India to assess its ability to advance inclusive and sustainable development The focus is on how CSR is remaking the practices and agendas of civic organizations that are being encouraged to collaborate with business to advance equality and prosperity Civil society organizations CSOs and corporations have a history of hostility to each other According to CSO workers businesses selfishly exploit workers despoil natural resources and distort democracy to serve their own profit making ends According to business executives CSOs are hopelessly naïve inefficient and interfere in the market in ways that reduce economic growth And yet in the past decade more and more CSOs and businesses are collaborating in new ways Individuals from both sectors are setting up social impact enterprises and social investing funds are increasing The more traditional forms of corporate CSO collaboration have expanded as more funds are flowing from business to the social sector The divide between the corporate sector and civil society seems to be narrowing Why is this happening and what are its consequences This book examines these trends in India where since 2013 the state has mandated co operation between the largest firms and NGOs in pursuit of inclusive and sustainable development This book offers evidence that CSR is unlikely to

contribute to inclusive and sustainable development By claiming to be helpers corporations are able to silence their critics and thus avoid making the deeper shifts in business models needed in order to create a more just and sustainable society

Humor, Silence, and Civil Society in Nigeria Ebenezer Obadare, 2016 This work is an important contribution to the civil society debate in Africa and to the global literature on dissent
