The Confessions of Jean Jacques Rousseau - Volume 09 Jean-Jacques Rousseau, 2016-02-01 One of the towering figures of the Enlightenment was Jean Jacques Rousseau whose works were essential to the ideological developments of the 18th century The prestige of French literature in the 18th century resides especially in its revolutionary character while the writers of the previous century used to support the social order through their works and showed sympathy and even attempted to explain the political order of the time in the 18th century art literature philosophy and science all contribute actively and fiercely to the fight against the absolutist monarch and his regime While this was a current manifesting all throughout Europe there were differences in practice especially between close countries as was the case of England and France Rousseau's life can best be described as a constant conflict whether it was conflict with his wife his employers his colleagues and even his friends However such situations led to the birth of masterpieces which have been influencing the advancement of critical thinking up to the present day The roots of his personality may be found in his childhood as the death of his mother and the fleeing of his older brother left him with a father who impressed upon him the love for studying and reading but could not cover for the other needs of a child Thus the absence of a family would affect his later relations with

people and it would even compel Rousseau to abandon all his five children in an orphanage an ironic fact given that he published a treaty on education It s quite likely that Rousseau realized the nature of the battles he fought In fact towards the end of his life whether he was motivated by repentance or simply a need to advance his work he provided his readers with explanations of all his actions and ideas The Confessions were published after his death and it is now considered by many to round his life s work into a single opus *The Confessions of Jean-Jacques Rousseau* Jean-Jacques Rousseau,1907
