The Consequences Of Modernity:

The Consequences of Modernity Anthony Giddens, 2013-04-25 In this major theoretical statement the author offers a new and provocative interpretation of the institutional transformations associated with modernity We do not as yet he argues live in a post modern world Rather the distinctive characteristics of our major social institutions in the closing period of the twentieth century express the emergence of a period of high modernity in which prior trends are radicalised rather than undermined A post modern social universe may eventually come into being but this as yet lies on the other side of the forms of social and cultural organization which currently dominate world history In developing an account of the nature of modernity Giddens concentrates upon analyzing the intersections between trust and risk and security and danger in the modern world Both the trust mechanisms associated with modernity and the distinctive risk profile it produces he argues are distinctively different from those characteristic of pre modern social orders This book build upon the author s previous theoretical writings and will be of fundamental interest to anyone concerned with Giddens s overall project However the work covers issues which the author has not previously analyzed and extends the scope of his work into areas of pressing practical concern This book will be essential reading for second year undergraduates and above in sociology politics philosophy and cultural studies

Globalization and the Mission of the Church Neil J. Ormerod,Shane Clifton,2011-10-27 Various social political economic and cultural commentators are presently arguing that human history is reaching a decisive stage in its development a stage marked by increased interconnection between peoples the compression of space and time a sharing of ideas at unprecedented levels global trade and finance and so on The shorthand word used to encompass these phenomena is globalization Some embrace it others reject it while still others dispute its existence But with the abundance of literature and debate that it generates the topic cannot be ignored From its inception in the missionary mandate of Jesus Matthew 28 Christianity has had a global dimension to its mission Christianity is not a spectator to globalization but one of its agents one of the forces at work which have extended interconnection between peoples shared ideas and promoted social political and cultural links The purpose of the present work is not to provide a complete response to the question of the mission of the church in a globalizing world but to establish a framework within which answers may be sought Grounded in the writings of Bernard Lonergan and Robert Doran it develops a theology of history and addresses the churches response to the impact of globalization on vital social cultural personal and religious values The project brings together the perspectives of Catholicism and Pentecostalism the former providing a depth of wisdom and tradition the latter drawing on the insight of a newly emerging movement that has taken root in every continent with remarkable energy and enthusiasm *The Evolutionary Winds of Society: Navigating Modernity's Impact on Human Societies* Pasquale De Marco, In this thought provoking book *The Evolutionary Winds of Society Navigating Modernity s Impact on Human Societies* the author embarks on an intellectual journey to explore the profound impact of modernity on human societies Through a comprehensive analysis of historical social and cultural factors the author sheds light on the complex interplay between modernity and various aspects of human existence This book offers a nuanced understanding of modernity s origins tracing its roots back to the Enlightenment and the Industrial Revolution It delves into the transformative effects of modernity on social structures economic systems and technological advancements The author skillfully weaves together insights from diverse disciplines including sociology history economics and philosophy to provide a holistic perspective on modernity The book also examines the challenges and contradictions inherent in modernity While it has brought about unprecedented progress and prosperity it has also given rise to social inequalities environmental degradation and a sense of alienation and isolation The author explores these issues with

rigor and sensitivity offering thought provoking insights into the dilemmas of modern society Furthermore the book delves into the impact of modernity on culture politics and religion It analyzes the changing nature of art literature and music in the modern era as well as the influence of mass media and popular culture on our values and beliefs The author also examines the evolving relationship between modernity and religion exploring the decline of traditional religious authority and the rise of secularism The Evolutionary Winds of Society is a timely and essential read for anyone seeking a deeper understanding of the forces that have shaped our world With its interdisciplinary approach and thought provoking analysis this book provides a valuable resource for students scholars policymakers and anyone interested in the complexities of modernity and its implications for the future of humanity If you like this book write a review

Mapping Generations of Traumatic Memory in American Narratives Dana Mihăilescu,Roxana Oltean,Mihaela Precup,2014-06-12 This volume collects work by several European North American and Australian academics who are interested in examining the performance and transmission of post traumatic memory in the contemporary United States The contributors depart from the interpretation of trauma as a unique exceptional event that shatters all systems of representation as seen in the writing of early trauma theorists like Cathy Caruth Shoshana Felman and Dominick LaCapra Rather the chapters in this collection are in conversation with more recent readings of trauma such as Michael Rothberg s multidirectional memory 2009 the role of mediation and remediation in the dynamics of cultural memory Astrid Erll 2012 Aleida Assman 2011 and Stef Craps focus on postcolonial witnessing and its cross cultural dimension 2013 The corpus of post traumatic narratives under discussion includes fiction diaries memoirs films visual narratives and oral testimonies A complicated dialogue between various and sometimes conflicting narratives is thus generated and examined along four main lines in this volume trauma in the context of multidirectional memory the representation of trauma in autobiographical texts the dynamic of public forms of national commemoration and the problematic instantiation of 9 11 as a traumatic landmark

The Media and Modernity John B. Thompson,1995 What role have communication media played in the formation of modern societies How should we

understand the social impact of new forms of communication and information diffusion from the advent of printing in fifteenth century Europe to the expansion of global communication networks today In this major new work Thompson addresses these and other questions by elaborating a distinctive social theory of communication media and their impact He argues that the development of communication media has transformed the spatial and temporal constitution of social life creating new forms of action and interaction which are no longer linked to the sharing of a common locale The consequences of this transformation are far reaching and impinge on many aspects of our lives from the most intimate aspects of personal experience and self formation to the changing nature of power and visibility in the public domain Combining breadth of vision with sensitivity to detail this book situates the study of the media where it belongs among a set of disciplines concerned with the emergence development and structural characteristics of modern societies and their futures
