

The background of the image is a scenic landscape. The upper portion shows a sky with soft, pinkish-purple and blue clouds, suggesting a sunset or sunrise. Below the sky, there are rolling hills or a field covered in dense foliage. The foliage is in various shades of green, yellow, and orange, indicating it is autumn. The overall lighting is soft and atmospheric.

The Conservative Affirmation in America

**Bruce Frohnen, Jeremy Beer, Nelson O.
Jeffrey**

The Conservative Affirmation in America:

The Conservative Affirmation Willmoore Kendall, 2022-09-06 Sixty years ago a maverick political scientist named Willmoore Kendall predicted the triumph of conservatism His former Yale student William F Buckley Jr called him one of the most superb and original political analysts of the 20th century but even Buckley shook his head at what appeared to be Kendall's baffling optimism Brilliant and cantankerous Kendall stood apart from the mainstream conservative movement Today half a century after his death he is recognized as the philosopher of conservative populism which has proved to be the keystone of American conservatism In the years since *The Conservative Affirmation* first appeared the struggle between left and right in American politics has proceeded along the lines Kendall identified In his masterpiece he left conservatives the theoretical support for populism that they need today Book jacket [*The Conservative Tradition in America* Charles W. Dunn, J. David Woodard, 1996](#) This book presents the first full scale survey written since the 1950s of American conservatism from the Founding to the Contract With America [*The Conservative Intellectual Movement in America Since 1945* George H. Nash, 2014-04-08](#) First published in 1976 and revised in 1996 George H Nash's celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the volume's thirtieth anniversary includes a new preface by Nash and will continue to instruct anyone interested in how today's conservative movement was born [*Conservative Thought and American Constitutionalism Since the New Deal* Johnathan O'Neill, 2022-11-29](#) In this work of intellectual history the author identifies four transformations in federal government that followed the New Deal the rise of the administrative state the erosion of federalism the ascendance of the modern presidency and the development of modern judicial review He then considers how schools of conservative thought traditionalists neoconservatives libertarians Straussians responded to each transformation **The Dilemmas of American Conservatism** Kenneth Deutsch, 2010-09-24 In the second half of the twentieth century American conservatism emerged from the shadow of New Deal liberalism and developed into a movement exerting considerable influence on the formulation and execution of public policy in the United States During that period the political philosophers who provided the intellectual foundations for the American conservative movement were John H Hallowell Eric Voegelin Leo Strauss Richard Weaver Russell Kirk Robert Nisbet John Courtney Murray Friedrich Hayek and Willmoore Kendall By offering a comprehensive analysis of their thoughts and beliefs *The Dilemmas of American Conservatism* both illuminates the American conservative imagination and reveals its most serious contradictions The contributing authors question whether a core set of conservative principles can be determined based on the frequently diverging perspectives of these key philosophers

Ancient Greece and American Conservatism John Bloxham, 2018-03-28 US conservatives have repeatedly turned to classical Greece for inspiration and rhetorical power In the 1950s they used Plato to defend moral absolutism in the 1960s it was Aristotle as a means to develop a uniquely conservative social science and then Thucydides helped to justify a more

assertive foreign policy in the 1990s By tracing this phenomenon and analysing these and various other examples of selectivity subversion and adaptation within their broader social and political contexts John Bloxham here employs classical thought as a prism through which to explore competing strands in American conservatism From the early years of the Cold War to the 2003 invasion of Iraq Bloxham illuminates the depth of conservatives engagement with Greece the singular flexibility of Greek ideas and the varied and diverse ways that Greek thought has reinforced and invigorated conservatism This innovative work of reception studies offers a richer understanding of the American Right and is important reading for classicists modern US historians and political scientists alike [Debating the American Conservative Movement](#) Donald T. Critchlow, Nancy MacLean, 2009-03-16 Debating the American Conservative Movement chronicles one of the most dramatic stories of modern American political history The authors describe how a small band of conservatives in the immediate aftermath of the Second World War launched a revolution that shifted American politics to the right challenged the New Deal order transformed the Republican party into a voice of conservatism and set the terms of debate in American politics as the country entered the new millennium Historians Donald T Critchlow and Nancy MacLean frame two opposing perspectives of how the history of conservatism in modern America can be understood but readers are encouraged to reach their own conclusions through reading engaging primary documents **The Making of the American Conservative Mind** Jeffrey Hart, 2014-05-06 National Review has been the leading conservative national magazine since it was founded in 1955 and in that capacity it has played a decisive role in shaping the conservative movement in the United States In The Making of the American Conservative Mind Jeffrey Hart provides an authoritative and high spirited history of how the magazine has come to define and defend conservatism for the past fifty years He also gives a firsthand account of the thought and sometimes colorful personalities including James Burnham Willmoore Kendall Russell Kirk Frank Meyer William Rusher Priscilla Buckley Gerhart Niemeyer and of course the magazine s founder William F Buckley Jr who contributed to National Review s life and wide influence As Hart sees it National Review has regularly veered toward ideology but it has also regularly corrected its course toward in Buckley s phrase a politics of reality Its catholicity and originality attributable to Buckley s magnanimity and sense of showmanship has made the magazine the most interesting of its kind in the nation concludes Hart His highly readable and occasionally contrarian history the first history of National Review yet published marks another milestone in our understanding of how the conservatism now so influential in American political life draws from and in some ways repudiates the intellectual project that National Review helped launch a half century ago [American Conservative Thought in the Twentieth Century](#) William F. Buckley Jr., 2017-09-04 If America has been an unsympathetic environment for conservatism conservatism has nevertheless demonstrated an extraordinary tenacity in politics literature law religion economics and social thought Conservatism forms a dissent within the liberal tradition and also deserves a hearing from any serious student of American history William F Buckley Jr brought this issue to the forefront in this outstanding collection

featuring some of the greatest political thinkers of the twentieth century This volume illuminates many aspects of the elusive conservatism of which so much has been written and helps to explain why it is that conservatism survives in politics economics social sciences and the arts Buckley has drawn from the works of renowned scholars and from those of relatively obscure figures whose contributions he persuasively puts forward as deeply influential in the crystallization of modern conservative thought This collection of essays begins by analyzing the history and background of American institutions It then goes on to inspect strong American presumption in favor of the private sector and the nature of specific challenges to modern society as well as the response of conservative thought and analysis to those challenges Pluralists will welcome the approach in this book and others will be excited by prestigious authors *A Case for Conservatism* John Kekes,2018-10-18 In his recent book *Against Liberalism* philosopher John Kekes argued that liberalism as a political system is doomed to failure by its internal inconsistencies In this companion volume he makes a compelling case for conservatism as the best alternative His is the first systematic description and defense of the basic assumptions underlying conservative thought Conservatism Kekes maintains is concerned with the political arrangements that enable members of a society to live good lives These political arrangements are based on skepticism about ideologies pluralism about values traditionalism about institutions and pessimism about human perfectibility The political morality of conservatism requires the protection of universal conditions of all good lives social conditions that vary with societies and individual conditions that reflect differences in character and circumstance Good lives according to Kekes depend equally on pursuing possibilities that these conditions establish and on setting limits to their violations Attempts to make political arrangements reflect these basic tenets of conservatism are unavoidably imperfect Kekes concludes however that they represent a better hope for the future than any other possibility

Defending the Republic Bruce Frohnen,Kenneth L. Grasso,2022-10-07 In recent years our constitutional order has increasingly come under attack as irredeemably undemocratic racist and oppressive At the same time it is increasingly obvious that politic practices in the United States have strayed very far from the founders designs and become deeply dysfunctional The time is thus ripe for renewed reflection about the American political tradition This volume reintroduces readers to the conservative tradition of political and constitutional discourse It brings together prominent political scientists and legal scholars all of whom were deeply influenced by the life and work of the eminent constitutional scholar George W Carey For over 40 years Carey strove mightily to explain the nature and requirements of our political tradition How it fostered meaningful virtuous self government and how our constitutional tradition has been derailed by progressivist ideology He is perhaps best known for his concept of constitutional morality the understanding that our republican constitutional order can be sustained only by a combination of formal mechanisms e g separation of powers and unwritten norms standards of behavior that act to foster deliberation and consensus as well as keep political actors within the boundaries of their constitutional offices Contributors including Francis Canavan Claes G Ryn Paul Edward Gottfried and

Peter Augustine Lawler discuss and develop Carey s key insights applying them to issues from the nature of majoritarian government to the purposes of constitutionalism to the decline of virtue that has accompanied the expansion of power among national and international elites Each essay provides penetrating analysis of key aspects of our tradition its inherent purposes growth and subsequent derailment as well as the resources remaining within that tradition for the rebuilding of our constitutional order and a decent common life

The Conservative Political Tradition in Britain and the United States Arthur Aughey, Greta Jones, William Terence Martin Riches, 1992 This book seeks to break new ground by providing an original framework within which to understand conservative politics and to compare what has always been thought to be opposite ideal types a British conservatism characterized by traditionalism and an American conservatism defined by its optimistic individualism

The Presidential Republic Gary L. Gregg, 1997 For two centuries American presidents have considered themselves to be representatives of the American people In this detailed study of presidential representation Gary Gregg explores the theory history and consequences of presidents acting as representatives in the American political system Gregg explores questions such as what it means to be a representative how the Founding Fathers understood the place of the presidency in the Republic established by the Constitution and the effects a representational presidency has on deliberative democracy This important examination of the presidency s place in our political system is essential reading for those interested in American political theory constitutional studies and American history

Judicial Review and American Conservatism Robert Daniel Rubin, 2017-03-20 Majoritarian Justices The Great Debate The Imperial Judiciary Notes Index

The Right Matthew Continetti, 2022-04-19 A magisterial intellectual history of the last century of American conservatism When most people think of the history of modern conservatism they think of Ronald Reagan Yet this narrow view leaves many to question How did Donald Trump win the presidency And what is the future of the Republican Party In *The Right* Matthew Continetti gives a sweeping account of movement conservatism s evolution from the Progressive Era through the present He tells the story of how conservatism began as networks of intellectuals developing and institutionalizing a vision that grew over time until they began to buckle under new pressures resembling national populist movements Drawing out the tensions between the desire for mainstream acceptance and the pull of extremism Continetti argues that the more one studies conservatism s past the more one becomes convinced of its future Deeply researched and brilliantly told *The Right* is essential reading for anyone looking to understand American conservatism

The Presidency Then and Now Phillip G. Henderson, 2000 In *The Presidency Then and Now* leading political scientists and historians assess the development of the presidency and its role in today s political landscape The questions addressed in this wide ranging volume include How has the doctrine of separation of powers evolved How have presidential campaigns and presidential oratory influenced the constitutional character of the institution How does the scandal driven press coverage of the post Vietnam and post Watergate presidency compare with the partisan press of the early republic Among other topics the contributors examine the

early precedents and modern manifestations of the executive veto executive privilege and presidential use of force doctrine and chart the shift from a constitutionally circumspect and constrained chief executive toward the modern notion of a plebiscitary presidency

The Presidency Then and Now assesses several key trends in presidential leadership including the recent movement toward a policy centered presidency in which detailed policy development has at times supplanted broad vision and historically informed judgment Other essays address such topics as the transformation of the Cabinet from a body whose members possessed stature equal to the president to a largely symbolic group that has been replaced in its advisory capacity by the White House staff

The Presidency Then and Now makes a case for returning to constitutional reasoned deliberation and replacing modern fixation on celebrity status with the founders notion of stature By drawing comparisons between the old and the new The Presidency Then and Now offers timely and incisive insights that will appeal not only to scholars of the presidency but to historians and general readers interested in the constitutional foundations philosophical debates and key political developments that have affected the presidential office over time

Leo Strauss and Anglo-American Democracy Grant N. Havers, 2013-10-15

Leo Strauss and Anglo American Democracy critically interprets Strauss s political philosophy from a conservative perspective Most mainstream readers of Strauss have either condemned him from the Left as an extreme right wing opponent of liberal democracy or celebrated him from the Right as a traditional defender of Western civilization Rejecting both portrayals Grant N Havers shifts the debate beyond the conventional parameters stating that Strauss was neither a man of the Far Right nor a conservative but in fact a secular Cold War liberal

In Leo Strauss and Anglo American Democracy Havers contends that the most troubling implication of Straussianism is that it provides an ideological rationale for the aggressive spread of democratic values on a global basis while ignoring the preconditions that make these values possible

Concepts such as the rule of law constitutional government Christian morality and the separation of church and state are not easily transplanted beyond the historic confines of Anglo American civilization as recent wars to spread democracy have demonstrated

Willmoore Kendall John A. Murley, John E. Alvis, 2002-01-01

Willmoore Kendall Maverick of American Conservatives provides the first book length study of a man long regarded as a founding father of American intellectual conservatism This edited collection brings together a diverse range of perspectives on Kendall s life and work and places the post World War II political theorist in the context of modern American conservatism

Far from providing a monolithic view of Kendall s thought the contributions illuminate an unconventional often contradictory thinker The book traces the development of Kendall s body of political thought from his early years in Oxford through his work on John Locke to the later speculation that produced *The Basic Symbols of the American Political Tradition* and analyzes the influence of Leo Strauss on his later work

Including for the first time in print the complete correspondence between Kendall and Strauss that significantly shaped Kendall s later work *Willmoore Kendall* is a vital contribution to American intellectual history

American Conservatism Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20

A must

own title National Review Online American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century More than fifteen years in the making and more than half a million words in length this informative and entertaining encyclopedia contains substantive entries on those persons events organizations and concepts of major importance to postwar American conservatism Its contributors include iconic patriarchs of the conservative and libertarian movements celebrated scholars well known authors and influential movement activists and leaders Ranging from abortion to Zoll Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself the encyclopedia s more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism This long awaited volume is not to be missed **American Conservatism** Andrew J. Bacevich,2020-04-07 As the nation stands at a crossroads this valuable collection urges us to reexamine the ideas and values of the American conservative tradition offering a bracing tonic for the present chaos The Washington Post A groundbreaking collection of mainstream conservative writings since 1900 featuring pieces by Ronald Reagan Antonin Scalia Joan Didion and more What is American conservatism What are its core beliefs and values What answers can it offer to the fundamental questions we face in the twenty first century about the common good and the meaning of freedom the responsibilities of citizenship and America s proper role in the world As libertarians neoconservatives Never Trump ers and others battle over the label this landmark collection offers an essential survey of conservative thought in the United States since 1900 highlighting the centrality of four key themes the importance of tradition and the local resistance to an ever expanding state opposition to the threat of tyranny at home and abroad and free markets as the key to sustaining individual liberty Andrew J Bacevich s incisive selections reveal that American conservatism in his words more akin to an ethos or a disposition than a fixed ideology has hardly been a monolithic entity over the last 120 years but rather has developed through fierce internal debate about basic political and social propositions Well known figures such as Ronald Reagan and William F Buckley are complemented here by important but less familiar thinkers such as Richard Weaver and Robert Nisbet as well as writers not of the political right like Randolph Bourne Joan Didion and Reinhold Niebuhr who have been important influences on conservative thinking More relevant than ever this rich too often overlooked vein of writing provides essential insights into who Americans are as a people and offers surprising hope in a time of extreme polarization for finding common ground It deserves to be rediscovered by readers of all political persuasions

If you ally dependence such a referred **The Conservative Affirmationin America** book that will find the money for you worth, acquire the extremely best seller from us currently from several preferred authors.
