Viktor Frankl and the Book of Job Marshall H. Lewis, 2020-01-01 As a Holocaust survivor neurologist and psychiatrist Dr Viktor E Frankl had a personal stake in the effectiveness of his approach to psychology he lived the suffering about which he wrote With this new reading of the Book of Job Lewis further develops Frankl's concept of Logotherapy as a literary hermeneutic presenting readers with the opportunity to discover unique meanings and clarify their attitudes toward pain guilt and death Key issues emerge from the discussion of three different movements which address Frankl's concept of the feeling of meaninglessness and his rejection of reductionism and nihilism the dual nature of meaning and his ideas of ultimate meaning and self transcendence Discovering meaning through participation with the text enables us to see that Job's final response can become a site for transcending suffering
