With these were found finger-rings, consisting of a flat mill of brass, back of clay in rectangular columns, and a variety of smaller articles for personal decoration, showing some considerable amount of refinement in the masses. The inhabitants of Middlesex and Kent appear, however, to have been always in possession of the Thames of the inland position, which may be ascribed to their connection with the commercial traders, and their respective wealth. The contents of their towns indicate a higher refinement, and a different taste in decoration. Antiquaries are now beginning to classify the Thames below

Such were the people-gregariousness of a race destined to establish the name and customs of Anglo-Saxons over the whole world. In their trading towns to their homes, we find much that is worthy of study in their life on the banks of the Thames. "In the old times before us," scattered among their graves are instructive illustrations of their history not to be found in the pages of the chronicles, but worthy of notice, and in our descent of the stream we shall get hints to note the relics of these barons, which also testify to their history as clearly as do the more enduring monuments of stone to the histories of classic nations.

"A woman was, might, might,
That dwelt in Epsom's holy church,
And worshipped at the same altar."

St. George's Church.

Romans, was, as we have intimated, probably occupied by Caesar when preparing for his struggle with the Britons, under Camulodunus, and it may be safely conjectured that his legions passed from this height into the valley to cross the Thames at Chertsey Meadows—"on sublimis arvis impetu." From the summit of this hill is obtained one of the most striking and magnificent views to be found anywhere in England, extending not only over Middlesex and Surrey, but into Buckinghamshire, Northampton, Essex, Kent, and even Sussex.
