Discovering the Okapi Simon Pooley, 2025-11-11 The captivating history of the okapi and its symbolic role in science, culture and conservation. In *Discovering the Okapi* Simon Pooley offers a fascinating portrait of the okapi, an elusive short-necked giraffid with zebra stripes surviving in the rainforests of central Africa's Congo basin and unpacks the complicated layers of Western science and Indigenous knowledge that shaped the world's understanding of this unique creature. Pooley tells the story of the okapi's discovery in 1900 by British naturalist Sir Harry Johnston as well as the overlooked contributions of the Indigenous African people whose expertise made this sighting and subsequent hunt for specimens possible. The book traces how colonial politics and scientific racism shaped early accounts of the animal's study and examines the enduring biases that continue to influence conservation efforts today. The okapi became a symbol of scientific curiosity, colonial power and conservation challenges revealing complex intersections among biodiversity, cultural heritage and environmental stewardship. Its precarious existence in captivity and the wild exposes how Western and Indigenous approaches to conservation can and must find common ground for its survival.

Animalia Antoinette Burton,Renisa Mawani,2020-10-09 From yaks and vultures to whales and platypuses animals have played central roles in the history of British imperial control The contributors to Animalia analyze twenty six animals domestic feral predatory and mythical whose relationship to imperial authorities and settler colonists reveals how the presumed racial supremacy of Europeans underwrote the history of Western imperialism Victorian imperial authorities adventurers and colonists used animals as companions military transportation agricultural laborers food sources and status symbols They also overhunted and destroyed ecosystems laying the groundwork for what has come to be known as climate change At the same time animals such as lions tigers and mosquitoes interfered in the

empire's racial gendered and political aspirations by challenging the imperial project's sense of inevitability. Unconventional and innovative in form and approach, *Animalia* invites new ways to consider the consequences of imperial power by demonstrating how the politics of empire in its racial gendered and sexualized forms played out in multispecies relations across jurisdictions under British imperial control. Debies-Carl, 2023-04-21.

Tonight across America, countless people will embark on an adventure. They will prowl among overgrown headstones in forgotten graveyards, stalk through darkened woods and wildlands, and creep down the crumbling corridors of abandoned buildings. They have set forth in search of a profound paranormal experience and may seem to achieve just that. They are part of the growing cultural phenomenon called legend tripping. In *If You Should Go at Midnight: Legends and Legend Tripping in America*, author Jeffrey S. Debies-Carl guides readers through an exploration of legend tripping, drawing on years of scholarship, documentary accounts, and his own extensive fieldwork. Poring over old reports and legends, sleeping in haunted inns, and trekking through wilderness full of cannibal mutants and strange beasts, Debies-Carl provides an in-depth analysis of this practice that has long fascinated scholars yet remains a mystery to many observers. Debies-Carl argues that legend trips are important social practices. Unlike traditional rites of passage, they reflect the modern world, revealing both its problems and its virtues. In society as well as in legend tripping, there is ambiguity, conflict, crisis of meaning, and the substitution of debate for social consensus. Conversely, both emphasize individual agency and values, even in spiritual matters. While people still need meaningful and transformative experiences, authoritative traditional institutions are less capable of providing them. Instead, legend trippers voluntarily search for individually meaningful experiences and actively participate in shaping and interpreting those experiences for themselves.
