R Bogdan

The Old Kalevala And Certain Antecedents:

The Old Kalevala, and Certain Antecedents, 1969 **The Old Kalevala and certain antecedents. Compiled by Elias Lönnrot. Prose translations with foreword and appendices by Francis Peabody Magoun** Francis Peabody Magoun, 1969 **The Kalevala** George C. Schoolfield, 1988 **The Kalevala**, 1985-03-15 The national folk epic of Finland is presented in an English translation Magoun has used prose printed line for line as in the original so that repetitions parallelisms and variations are apparent The lyrical passages and poetic images wry humor tall tale extravagance and homely realism of the Kalevala come through with great effectiveness **Tolkien and the Invention of Myth: A Reader** Jane Chance, 2005 In this book the essays illuminate the crucial episodes characters style language and concepts central to Tolkien's complex world Dust jacket **Finnish Folk Poetry and the Kalevala** Thomas A. DuBois, 2022-02-13 Since its initial publication in the early nineteenth century Elias Lönnrot's Finnish epic Kalevala has attracted international interest and scholarship However the author comments that the distorting lenses of translation cultural difference and historical distance have rendered the work a cryptic and often misinterpreted text outside of its country of origin Even within Finland scholars have found it difficult at times to judge the relation of the Kalevala to its oral sources Lönnrot's meticulous notes and discussions of intent and accomplishment make clear what he changed and how he went about it but give us less inkling of why This study's view is that the key to understanding Lönnrot's changes lies in Romantic aesthetics and in the intellectual and socio-political agendas which they encode Lönnrot created a Romantic epic out of Baltic Finnic folk poetry an epic complete with the narrative generic gendered and political characteristics of literary epics in nineteenth century Europe

Traditional Cosmology, vol. 5: Solar and Lunar Anomalies Marinus Anthony van der Sluijs, 2018-01-01 This work in 6 volumes is a compendium of traditional cosmologies worldwide The material includes the global mythology of creation and destruction but also comprises information drawn from other areas of traditional knowledge ritual iconography shamanism costume and dance Relying on original sources universal points of agreement are identified often on counter-intuitive ideas These suggest a single template a blueprint for a universal mythology of origins with local variations Volume 5 documents a large number of traditions concerning unusual and often undesirable properties and activities of the sun and moon To name just a few examples prominent beliefs were that the moon was originally brighter than the sun and that the earth once succumbed to the heat caused by the sun's former proximity its greater strength its failure to move or the appearance of multiple luminaries *A History of Finland's Literature* George C. Schoolfield, 1998-01-01 The literature of Finland is bilingual with lively and extensive traditions in both Finnish and Swedish This history covers both literary traditions in detail The volume's first section on Finnish language literature consists of a series of connected chapters by leading authorities within the field It opens with a consideration of the folk literature in Finnish that flourished during the Middle Ages and then examines the more recent history of Finnish language literature with special emphasis placed on writings from the

nineteenth and twentieth centuries The second part of the book provides an examination of Finland s Swedish language literature from the late fifteenth century through the early nineteenth century Subsequent chapters trace developments in Finland s Swedish language literature during the nineteenth and twentieth centuries A survey of children s literature from both the Finnish and Swedish language traditions concludes this exceptionally thorough volume

On the Origin of Myths in Catastrophic Experience, vol. 1: Preliminaries Marinus Anthony van der Sluijs, 2019-01-01 Creation myths around the world reveal an intricate network of recurrent motifs Many of these are counterintuitive and not widely known describing a time when the sky was low the stars did not yet shine multiple suns appeared the moon was brighter than the sun no land existed deities and mortals maintained frequent contact a world axis in the form of a tree ladder or giant man connected the earth with the sky a devastating flood or fire ended the old order and so forth The present work in multiple volumes aims to find an origin for this cross culturally and internally consistent body of traditions in a series of extraordinary natural events relating especially to the earth s transition from the last glacial period to the Holocene This first volume sets the stage for the interdisciplinary hypothesis Essential lines of research receive a historical introduction comparative mythology catastrophism and the study of the mythical world axis in relation to the earth s rotation Various astronomical and meteorological interpretations that are not strictly catastrophist are explored for several types of myths about the sun the moon and the world axis but leave many of the most intriguing traditions unexplained It is argued that a structural core of the worldwide mythology of creation and destruction in which the cosmic axis takes pride of place points to a specific period of dramatic natural circumstances in real prehistoric time A new synopsis is provided of this universal mythological substrate It emerges that the mythical world axis cannot have been based on a single object seen or imagined at one of the poles as has usually been supposed This surprising conclusion paves the way for the innovative geomagnetic theory proposed in volume 2

Children of Ash and Elm Neil Price, 2020-08-25 The definitive history of the Vikings from arts and culture to politics and cosmology by a distinguished archaeologist with decades of expertise The Viking Age from 750 to 1050 saw an unprecedented expansion of the Scandinavian peoples into the wider world As traders and raiders explorers and colonists they ranged from eastern North America to the Asian steppe But for centuries the Vikings have been seen through the eyes of others distorted to suit the tastes of medieval clerics and Elizabethan playwrights Victorian imperialists Nazis and more None of these appropriations capture the real Vikings or the richness and sophistication of their culture Based on the latest archaeological and textual evidence Children of Ash and Elm tells the story of the Vikings on their own terms their politics their cosmology and religion their material world Known today for a stereotype of maritime violence the Vikings exported new ideas technologies beliefs and practices to the lands they discovered and the peoples they encountered and in the process were themselves changed From Eirik Bloodaxe who fought his way to a kingdom to Gudrid Thorbjarnardottir the most traveled woman in the world Children of Ash and Elm is the definitive history of the Vikings and their time
