The Organizing Property Of Communication Pragmatics And Beyond New Series:

The Organizing Property of Communication François Cooren, 2000 What is an organization What are the building blocks that ultimately constitute this social form so pervasive in our daily life Like Augustine facing the problem of time we all know what an organization is but we seem unable to explain it This book brings an original answer by mobilizing concepts traditionally reserved to linguistics analytical philosophy and semiotics Based on Algirdas Julien Greimas semio narrative model of action and Jacques Derrida's concept of critique a reconceptualization of speech act theory is proposed in which communication is treated as an act of delegation where human and nonhuman agents are mobilized texts machines employees architectural elements managers etc Perfectly congruent with the last development of the sociology of translation developed by Michel Callon and Bruno Latour this perspective illustrates the organizing property of communication through a process called interactoriality Jacques Lacan used to say that the unconscious is structured like a language This book shows that a social organization is structured like a narrative *Pragmatics*, 2001 [Linguistic Bibliography for the Year 2000 / Bibliographie Linguistique de l'Année 2000](#) Sijmen Tol, Hella Olbertz, Mark Janse, 2004-12-10 Bibliographie Linguistique Linguistic Bibliography is the annual bibliography of linguistics published by the Permanent International Committee of Linguists under the auspices of the International Council of Philosophy and Humanistic Studies of UNESCO With a tradition of more than fifty years the first two volumes covering the years 1939 1947 were published in 1949 1950 Bibliographie Linguistique is by far the most comprehensive bibliography in the field It covers all branches of linguistics both theoretical and descriptive from all geographical areas including less known and extinct languages with particular attention to the many endangered languages of the world Up to date information is guaranteed by the collaboration of some forty contributing specialists from all over the world With over 20 000 titles arranged according to a detailed state of the art classification Bibliographie Linguistique remains the standard reference book for every scholar of language and linguistics

Studies in Language, 2000 [International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences](#), 2001 *Beyond Misunderstanding* Kristin Bührig, Jan D. ten Thije, 2006-05-09 This book challenges two tacit presumptions in the field of intercultural communication research Firstly misunderstandings can frequently be found in intercultural communication although one could not claim that intercultural communication is constituted by misunderstandings alone This volume shows how new perspectives on linguistic analyses of intercultural communication go beyond the analysis of misunderstanding Secondly intercultural communication is not solely constituted by the fact that individuals from different cultural groups interact Each contribution of this volume analyses to what extent instances of discourse are institutionally and/or interculturally determined These linguistic reflections involve different theoretical frameworks e.g. functional grammar systemic functional linguistics functional pragmatics rhetorical conversation analysis ethno methodological conversation analysis linguistic anthropology and a critical discourse approach

As the contributions focus on the discourse of genetic counseling gate keeping discourse international team co operation international business communication workplace discourse internet communication and lamentation discourse the book exemplifies that the analysis of intercultural communication is organized in response to social needs and therefore may contribute to the social justification of linguistics

Beyond the Rapist Kate Lockwood Harris, 2019-03-04 In *Beyond the Rapist* Kate Lockwood Harris demonstrates how universities and colleges fighting against sexual violence on their campuses may simply be reproducing that violence in other forms She uses feminist new materialist theory to analyze how a particular college deals with rape and other sexual assaults while complying with federal laws Ultimately she shows why universities should broaden their concern beyond individual perpetrators to organizational processes

The Situated Organization James R. Taylor, Elizabeth J. Van Every, 2010-09-13 *The Situated Organization* explores recent research in organizational communication emphasizing the organization as constructed in and emerging out of communication practices Working from the tradition of the Montreal School in its approach it focuses not only on how an organization's members understand the purposes of the organization through communication but also on how they realize and recognize the organization itself as they work within it The text breaks through with an alternative viewpoint to the currently popular idea of organization as network viewing organization instead as a configuration of agencies and their fields of practice It serves as an original comprehensive and well written text elaborated by case studies that make the theory come to life The substantial ideas and insights are presented in a deep and meaningful way while remaining comprehensible for student readers This text has been developed for students at all levels of study in organizational communication who need a systematic introduction to conducting empirical field research It will serve as an invaluable sourcebook in planning and conducting research
