The Origin of the Serif Edward M. Catich, 1991 This handsomely illustrated book goes beyond a discussion of the serif Here you will find a new approach to the history lineage development of our alphabet a detailed explanation of letter cutting in stone the manner in which the brush differs from all other writing tools the role it played in the shaping of our classic Roman alphabet with a wealth of other information pertinent to the graphic arts During four years 1935-1939 of intensive paleographic epigraphic research in Rome Italy Fr Catich saw formulated the kinesthetic linkage between the inscription letter making of Imperial Rome his own familiar Chicago sign writing The serif is the short cross stroke at the beginning end of letter parts Its origin in Roman inscription letters is one of the uncharted areas of paleography In this book the author questions accepted theories as to the serif's origin advances his own theory with skillful reasoning detailed illustration epigraphic proof The Origin of the Serif, Brush Writing and Roman Letters Edward M. Catich, 1968 *The Lettering of an Athenian Mason* Stephen V. Tracy, 1975 Revision of the author's thesis Harvard 1967 *Selected Essays on the History of Letter-forms in Manuscript and Print* Stanley Morison, 2009 **The Art of the Hekatompedon Inscription and the Birth of the Stoichedon Style** Patricia A. Butz, 2010-07-26 The purpose of this book is to present the Hekatompedon Inscription at Athens IG I3 4 as a major monument of Greek art legitimately on a par with more famous landmarks of the Greek aesthetic tradition like the Parthenon Frieze Inscribed most probably in the middle of the decade that saw the Greek response to the Persian invasion the Hekatompedon Inscription has long been recognized for its historical and religious importance This study looks at the inscription on its own terms the unique fusion of its visual and textual content in that most Greek of epigraphical layouts the stoichedon style Such an approach leads to the question of origins where and why was the stoichedon style formulated and where does the Hekatompedon Inscription stand in that development Egypt's influential system of proportions and use of grids will be considered determinative for the very first time **The Typographic Medium** Kate Brideau, 2021-10-19 An innovative examination of typography as a medium of communication rather than part of print or digital media Typography is everywhere and yet widely unnoticed When we read type we fail to see type In this book Kate Brideau considers typography not as part of print media or digital media but as a medium of communication itself able to transcend the life and death of particular technologies Examining the contradiction between typographic form often overlooked and function often overpowering Brideau argues that typography is made up not of letters but of shapes and that shape is existentially and technologically central to the typographic medium After considering what constitutes typographic form Brideau turns to typographic function and how it relates to form Examining typography's role in both the neurological and psychological aspects of reading she argues that typography's functions exceed reading typographic forms communicate but that communication is not limited to the content they carry To understand to what extent the design and operations of the typographic medium affect the way we perceive information Brideau warns we must understand the medium's own

operational logic embodied in the full diversity of typographic forms Brideau discusses a range of topics from intellectual property protection for typefaces to Renaissance and Enlightenment ideal letterforms and draws on a wide variety of theoretical work including phenomenological ideas about comprehension German media archaeology and the media and communication theories of Vil m Flusser and others Hand drawn illustrations of typographic forms accompany the text
