[The Hitchhiker's Guide to the Galaxy Radio Scripts Volume 2](#) Douglas Adams, 2012-07-26

Twenty five years after the original radio series of The Hitchhiker's Guide to the Galaxy exploded into the public consciousness the further exploits of its bewildered hero Arthur Dent were finally adapted for radio by Dirk Maggs in part using drafts written by Douglas Adams before his death The resulting fourteen completely new episodes were produced by Above the Title Productions and broadcast on BBC Radio 4 with nearly all of the original cast reunited for recording These scripts brilliantly bring to life the last three books in Adams perennially popular Hitchhiker series Life the Universe and Everything So Long and Thanks for All the Fish and Mostly Harmless Dirk Maggs supplies notes which highlight original Adams material and explain how the cast special effects and music were directed The scripts are introduced by Simon Jones who played Arthur Dent in both the original and the recent radio series as well as in The Hitchhiker's Guide to the Galaxy television series Douglas Adams first conceived The Hitchhiker's Guide to the Galaxy for radio and it is an honour to his memory that all five Hitchhiker novels have now been adapted for this medium These scripts exemplify the freshness of perspective humour and perspicacity that epitomize the work of Douglas Adams They will be loved by fans and those new to Hitchhiker's alike

Hitchhiker M. J. Simpson, 2005-04-29

Douglas Adams will be most fondly remembered for the Hitchhiker's Guide to the Galaxy series and its idiosyncratic humour But this biography covers his life from his days as a struggling sketch writer to his untimely death at the age of 49 in May 2001

First Light G.R. Evans, 2013-11-19 Did the universe start with a bang or has it existed always Was there a supernatural being behind it all or just mindless forces The beginning of things has forever tested the limits of curiosity and such questions have both challenged atheists and inspired believers Ancient cultures resorted to myth and symbolism to tell vibrant stories about human origins Later civilizations added philosophical and scientific explanations but these are not definitive The nature and meaning of existence the why as much as the how questions are in the end mysterious In this lively and wide ranging book G R Evans explores the world's myriad creation stories against the background of the biggest question there is what are we doing here Discussing Swahili legends that resemble the Book of Genesis Greek tales about the Titans Native American Inca and Mesopotamian mythologies and Vedic creation cycles that begin with a cosmic egg or seed the author surveys polytheist monotheist and dualist ideas about supernatural power Tracing the history of humanity as it has struggled over many millennia to make sense of itself The Creation Myth will attract students of religion history and philosophy and general readers alike
