The Other Hand Clapping:

One Hand Clapping Nikolay Kukushkin, 2025-10-23 Brilliant bold and beautifully articulated Karl J Friston Professor of Neuroscience University College London Neuroscientist Nikolay Kukushkin reveals the miracle by which consciousness evolved out of the natural world from the birth of the cell to the majesty of our modern minds Science says that you are nothing but a chemical reaction a collection of atoms and molecules like rocks paperclips and everything else in the physical universe But if that's so where is the place in this world for your consciousness In a word why does it feel so special to be you Like the Zen Buddhist riddle pondering the imponderable the sound of a single hand clapping this book asks the seemingly unanswerable question of how the human mind came to exist within the material world In search of an answer neuroscientist Nikolay Kukushkin takes readers on a billion year journey through time from the roots of our existence to the advent of Homo sapiens reimagining the story of our evolution The result is an exhilarating book that embeds our consciousness within a single unified story of life on Earth A work of ambitious intellectual scope *One Hand Clapping* is distinguished as much by its originality as by the breadth of its imaginative reach drawing from neuroscience evolution philosophy and a rich tapestry of cultural references all brought to life by the author's own illustrations Told with the drama and daring of a mythical epic it reaches deep into our oceanic past to show for the first time how the entire course of Earth's history from the earliest non living particles ultimately led to the formation of our own minds

The Other Hand Clapping Marco Vassi, 2014-08-26 Larry felt something he hadn't experienced for years the sharp clutch of jealousy twisting his stomach In all the years they'd been together he'd never doubted Eleanor's fidelity in the slightest In this striking startling novel Vassi turns his talent to a tale that blends Zen and jealous passion into a suspenseful erotically charged thriller For Larry he wonders if the evidence of his wife's supposed infidelity is real or a hallucination produced by his own meditations and inner fears It all builds to a shattering climax that reexamines the idea of life death and sex Marco Vassi was without a doubt the foremost erotic writer of our generation Praised by Norman Mailer Kate Millett Saul Bellow and Gore Vidal he was not only the ultimate sexual explorer but a literary craftsman whose own life experiences became the stuff of his fiction expanded of course by a grand imagination and a full sense of the absurd Tragically Vassi died from pneumonia after he had contracted AIDS
