The British Governments China Policy 1945-1950

Zhongping Feng

The British Governments China Policy 1945-1950:

The British Government's China Policy, 1945-1950 Zhongping Feng, 1994 A look at the British Government's policy towards China between 1945 and 1950 *Britain and China 1945-1950* S.R. Ashton, G. Bennett, K. Hamilton, 2013-10-23 An examination of Britain's relations with China from the end of the World War II to the outbreak of the Korean War in 1950 This volume demonstrates how Britain's effort to recover something of its pre-war commercial pre-eminence in China were handicapped by its post-war financial weakness **Sino-British Negotiations and the Search for a Post-War**

Settlement, 1942-1949 Zhaodong Wang, 2022-03-21 The book is a systematic study of the China-Britain relationship during the 1942-1949 period with a particular focus on the two countries' discussions over both the 1943 Sino-British treaty and the discarded Sino-British commercial treaty, the future of Hong Kong and the political status of Tibet. These were dominated by two underlying themes: the elimination of the British imperialist position in China and the establishment of an equal and reciprocal bilateral relationship. The negotiations started promisingly in 1942-1943 but by 1949 had failed to reach a satisfactory settlement. Behind the failure lay a complex set of domestic considerations and external factors including the powerful influence of the United States. Even after seven decades the failure still has a contemporary impact. Recent Sino-British disputes over the Hong Kong Anti-Extradition Law Amendment Bill Movement and incessant Indo-Chinese conflicts and skirmishes over their unsettled borders all attest to the enduring legacy of the years 1942-1949 as setting the scene for subsequent Sino-British and Sino-Indian relations. From this perspective the history has never left us **The Oxford**

History of the British Empire: Volume IV: The Twentieth Century Judith Brown, Wm Roger Louis, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. The Oxford History of the British Empire as a comprehensive study allows us to understand the end of Empire in relation to its beginnings, the meaning of British imperialism for the ruled as well as the rulers, and the significance of the British Empire as a theme in world history. Volume IV considers many aspects of the imperial experience in the final years of the British Empire, culminating in the mid-century's rapid processes of decolonization. It seeks to understand the men who managed the empire, their priorities and vision, and the mechanisms of control and connection which held the empire together. There are chapters on imperial centres, on the geographical periphery of empire, and on all its connecting mechanisms, including institutions and the flow of people, money, goods, and services. The volume also explores the experience of imperial subjects in terms of culture, politics, and economics, an experience which culminated in the growth of vibrant, often new national identities and movements, and ultimately new nation-states. It concludes with the processes of decolonization which reshaped the political map of the late twentieth-century world **British Power and International Relations**

during the 1950s Michael J. Turner, 2009-10-08 This book examines Britain's role and influence in a pivotal decade. The postwar international order was still taking shape in the 1950s. Much was unsettled and in these circumstances Britain could realistically expect to remain and be treated as one of the Big Three world powers along with the United States and Soviet Union. Some adjustments were required in British priorities and methods in view of changing pressures and needs at home and abroad but the continuing desire was to make Britain's position tenable in those parts of the world that were of special importance to British prestige, power, strategy, prosperity and security. This book elucidates the motives behind key decisions, discusses their far-reaching consequences, explains why some options were taken and others rejected and places British policy making in the appropriate international context. Designed primarily for undergraduate and beginning postgraduate students, the book offers an up-to-date, single-volume treatment of major themes in British and international history, historiographical synthesis and comment, detailed narrative accessible, easy to follow, analysis and a clear evidence-based point of view concerning the survival of British power in challenging times. *Taiwan's Informal Diplomacy and Propaganda*

Gary D. Rawnsley, 2000-03-28 How do governments that do not enjoy formal diplomatic relations use propaganda? When a government is denied recognition by the international community it must explore every avenue of publicity available to project its image and policies. For such actors propaganda can become diplomacy out of necessity. The Republic of China on Taiwan is such a government and its predicament is the subject of this book. It discusses the relationship between diplomacy and propaganda from an exciting new perspective illustrated by a fascinating case study. *Britain's Cold War in Cyprus and Hong Kong*

Christopher Sutton, 2016-11-07 Linking two defining narratives of the twentieth century, Sutton's comparative study of Hong Kong and Cyprus, where two of the empire's most effective communist parties operated, examines how British colonial policy makers took to cultural and ideological battlegrounds to fight the anti-colonial imperialism of their communist enemies in the Cold War. The structure and intentional nature of the British colonial system grants unprecedented access to British perceptions and strategies which sought to balance constructive socio-political investments with regressive and self-defeating repression, neither of which Britain could afford in the Cold War conflict of empires. **A Modern History of Hong Kong**

Steve Tsang, 2007-07-30 This major history of Hong Kong tells the remarkable story of how a cluster of remote fishing villages grew into an icon of capitalism. The story began in 1842 with the founding of the Crown Colony after the First Anglo-Chinese war, the original Opium War. As premier power in Europe and an expansionist empire, Britain first created in Hong Kong a major naval station and the principal base to open the Celestial Chinese Empire to trade. Working in parallel with the locals, the British built it up to become a focus for investment in the region and an international centre with global shipping, banking and financial interests. Yet by far the most momentous change in the history of this prosperous capitalist colony was its return in 1997 to Mother China, the most powerful Communist state in the world. *The Origins of the Korean War*

Peter Lowe, 2014-07-30 The impressive Second Edition of this standard study incorporates important new

evidence on the origins of the war from Chinese and Russian archives It reveals that Stalin encouraged the attack on South Korea but also confirms that the original initiative came from North Korea Peter Lowe has also written an extended conclusion with a discussion of the Koreas in the late 1990s and the challenges involved in securing their reunification

Profits, Politics and Panics Leo Goodstadt, 2007-10-01 Goodstadt brilliantly weaves a tapestry that resolves major puzzles about Hong Kong's growth as an international financial centre during this pivotal fifty year period This is a devastating expose of the consequences of the British colonial government's failure to effectively regulate banking and manage monetary policy David Meyer Washington University St Louis Leo F Goodstadt is adjunct professor in the School of Business Studies at Trinity College University of Dublin He was formerly deputy editor of the Far Eastern Economic Review
