The Community Of Knowledge Modern Revivals In Philosophy S:

Revival: Contemporary Indian Philosophy (1936) S. Radhakrishnan, J. H. Muirhead, 2018-12-20 The book includes essays which are all written by philosophers of or about forty five years of age They fall into two main groups those in which the writer devotes himself chiefly to the exposition of the great Vedic tradition as he has apprehended it and made it the basis of his own life's work and those in which the writer while on the whole remaining true to the spirit of that tradition has sought to give new interpretations of it either by instituting comparisons of it with the Western doctrines most closely allied to it or by treating of modern problems in a way which though suggested by what he has learned from the West is yet stamped with the mark of his own racial sympathy Western readers will naturally find the latter group more attractive but this volume will have failed of its purpose if it does not give them some sense of the truth that underlies even the essays with which owing to the presuppositions in which these are founded they find themselves least in sympathy Books in Print, 1994

Testimony, Trust, and Authority Benjamin McMyler, 2011-09-12 Testimony Trust and Authority develops and defends an interpersonal theory of testimony according to which a speaker's testimony provides an audience with a distinctively second personal reason for belief *Revival: Aspects of Judaism (1928)* Rabbi Salis Daiches, 2018-05-08 Addressed to Jews and non Jews alike though aware that these two reader groups were likely to approach the book with very different presuppositions Daiches sets out to define Judaism in relation to philosophy to explain Kant's philosophy through the superiority of halakhah defend a biblically based Jewish interpretation of history and champion Judaism as a religion of freedom guaranteed by halakhah Jewish law The Revival of Civil Society Michael G. Schechter, 2016-07-27 What is meant by the concept of civil society Why do some equate it with liberal democracy while others think it simply a guise for a market economy Who benefits from globalization and who loses out Can civil society prosper in an era of globalization Can global civil society restrain some of the negative consequences of economic globalization Through a series of unique case studies and theoretical inquiries this volume provides a set of concrete answers to questions such as these **Whitaker's Books in Print**, 1998 **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability

Beyond the Republican Revival Eric Ghosh, 2020-10-29 This is the first book length treatment of both the non positive and the positive liberty strands of the republican revival in political and constitutional theory The republican revival pursued especially over the last few decades has presented republicanism as an exciting alternative to the dominant tradition of liberalism The book provides a sharply different interpretation of liberty from that found in the republican revival and it argues that this different interpretation is not only historically more faithful to some prominent writers identified with the republican tradition but is also normatively more attractive The normative advantages are revealed through discussion of

some central concerns relating to democracy and constitutionalism including the justification for democracy and the interpretation of constitutional rights The book also looks beyond republican liberty by drawing on the republican device of sortition selection by lot It proposes the use of large juries to decide bill of rights matters This novel proposal indicates how democracy might be reconciled with constitutional review based on a bill of rights Republicanism is not pitted against liberalism the favoured values and institutions fit with liberal commitments **Subject Guide to Books in Print** ,1996

Epistemic Value Adrian Haddock,Alan Millar (Ph. D.),Duncan Pritchard,2009-09-03 Epistemic Value is a collection of new essays by leading epistemologists focusing on questions regarding the value of knowledge such as Is knowledge more valuable than true belief Is truth the central value informing epistemic appraisal or do other values enter the picture **The Elgar Companion to Innovation and Knowledge Creation** Harald Bathelt,Patrick Cohendet,Sebastian Henn,Laurent Simon,2017-11-24 This unique Companion provides a comprehensive overview and critical evaluation of existing conceptualizations and new developments in innovation research It draws on multiple perspectives of innovation knowledge and creativity from economics geography history management political science and sociology The Companion brings together leading scholars to reflect upon innovation as a concept Part I innovation and institutions Part II innovation and creativity Part III innovation networking and communities Part IV innovation in permanent spatial settings Part V innovation in temporary virtual and open settings Part VI innovation entrepreneurship and market making Part VII and the governance and management of innovation Part VIII *The British National Bibliography* Arthur James Wells,2002 Rhetoric and the Arts of Design David S. Kaufer,Brian S. Butler,2013-11-26 The design arts from the design of buildings and machines to software and interfaces are associated with types of knowledge and performance thought to be structured modular and systematic Such arts have become increasingly prestigious in our technocratic society Since Aristotle the art of rhetoric was conceived as a loosely structured practical art thought to be limited in the extent to which it could mimic more precise subject matters The art of rhetoric has been controversial since classical times but its status has sunk even lower since the industrial revolution a point when civic cultures began to cede authority and control to the cultures of specialized experts Many sympathizers of rhetoric have resisted its decline by calling for a civic art of public discourse to stand in opposition to a technocratic specialized discourse that has come increasingly to disenfranchise the ordinary citizen This is the first book to question the rhetoric technical knowledge split from a more fundamental perspective To get some perspective on what is at stake in rhetoric s traditional classification as a practical art the authors explore the distinction between practical and design arts enumerate the various criteria cited in the literature for qualifying a cluster of knowledge and performative skills to count as an art of design show how the knowledge and performative skills associated with the art of rhetoric meet the major requirements of design knowledge propose a general architecture of rhetorical design one descriptive both of civic address and specialized academic argument turn to the Lincoln Douglas debates to embody and provide some empirical support and

illustration for their architecture demonstrate how Lincoln and Douglas can be thought of as expert designers whose rhetoric is highly structured and modular and explain how the rhetoric of both rhetorical agents can be represented in the layers and modules that one needs to display plans for buildings software or other design artifacts These layers and modules are not just post hoc annotations of the debates they also illuminate new and systematic ways for viewing the debates and by implication other specimens of rhetoric in terms of strategies of artistic production Kaufer and Butler conclude their presentation by citing some of the research and educational implications that follow from housing rhetoric within the family of design arts

Democracy, Corruption and the Politics of Spirits in Contemporary Indonesia Nils Bubandt,2014-06-05 Indonesia has been an electoral democracy for more than a decade and yet the political landscape of the world s third largest democracy is as complex and enigmatic as ever The country has achieved a successful transition to democracy and yet Indonesian democracy continues to be flawed illiberal and predatory This book suggests that this and other paradoxes of democracy in Indonesia often assume occult forms in the Indonesian political imagination and that the spirit like character of democracy and corruption traverses into the national media and the political elite Through a series of biographical accounts of political entrepreneurs all of whom employ spirits in various but always highly contested ways the book seeks to provide a portrait of Indonesia s contradictory democracy contending that the contradictions that haunt democracy in Indonesia also infect democracy globally Exploring the intimate ways in which the world of politics and the world of spirits are entangled it argues that Indonesia s seemingly peculiar problems with democracy and spirits in fact reflect a set of contradictions within democracy itself Engaging with recent attempts to look at contemporary politics through the lens of the occult *Democracy Corruption and the Politics of Spirits in Contemporary Indonesia* will be of interest to academics in the fields of Asian Studies Anthropology and Political Science and relevant for the study of Indonesian politics and for debates about democracy in Asia and beyond

Rethinking the High Renaissance Jill Burke, 2017-07-05 The perception that the early sixteenth century saw a culmination of the Renaissance classical revival only to degrade into mannerism shortly after Raphael's death in 1520 has been extremely tenacious but many scholars agree that this tidy narrative is deeply problematic Exploring how we can reconceptualize the High Renaissance in a way that reflects how we research and teach today this volume complicates and deepens our understanding of artistic change Focusing on Rome the paradigmatic centre of the High Renaissance narrative each essay presents a case study of a particular aspect of the culture of the city in the early sixteenth century including new analyses of Raphael's stanze Michelangelo's Sistine Ceiling and the architectural designs of Bramante The contributors question notions of periodization reconsider the Renaissance relationship with classical antiquity and ultimately reconfigure our understanding of high Renaissance style

The Existential Philosophy of Etty Hillesum Meins G. S. Coetsier, 2014-01-09 In *The Existential Philosophy of Etty Hillesum* Meins G. S. Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum's spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum's diaries and letters written between 1941 and 1943 illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum's path to spiritual freedom
