Truant, Sean Platt, From the bestselling authors of the Invasion and Yesterday's Gone series comes The Beam a disturbing philosophical exploration of the future of our hyperconnected world This chilling intricately plotted series is set in a futuristic dystopia where politics and technology have widened the gap between haves and have nots All of humanity is connected to The Beam and to the lie In the year 2097 the only stable nation is the NAU a dystopia exploding with new technologies and ruled by two political parties The choices are Enterprise sink or swim effort and luck determine whether members prosper or starve or Directorate where members are guaranteed safety but can never rise above their station Above it all is The Beam an AI built computer network that serves every whim and connects citizens through implants and biological add ons The Beam anticipates every need and has created a world within the world It permeates everything And is everywhere But the NAU's power is shifting New powers are making their moves while others hang in the balance Behind it all a shadowy group is pulling strings and guiding the upcoming election exactly where they want it to go The Beam is coming alive immersion is as real as reality If the NAU's power goes unchecked the actions of a shadowy few will shape the fate of millions forever This series is one of the best from these authors which is saying a lot because Sean Platt Johnny B Truant David Wright any combination of the three are by far my favorite authors The Beam is an extremely complex world with complex characters Matt Browner I'd have to say this series has them all beat because all the technologies or magic if you will in this series are better developed the characters are more involved and the story lines are better woven And I'm not talking about twists and turns in the plot that require suspending disbelief yeah right or leave you confused as to what happened It's pretty amazing and thought provoking Burton Kent Inside the Giant Electric Machine John Guiliano, 2020 Steam Side is Volume Four in a series of books titled Inside the Giant Electric Machine Steam Side invites the whole world inside a modern day electric generating facility Steam Side welcomes everyone the opportunity to become a member of a very diverse team of skilled craftsmen and women working together safely understanding the importance of getting the job done right the first time Steam Side explains in detail the disassembly inspection and replacement of parts and reassembly of the main steam turbines which are a vital part of the equipment necessary to generate electricity Inside the Giant Electric Machine **The Complete Guide to Mysterious Beings** John A.
