*The Complete Guide to Canada's General Mobile Radio Service* Phillip J. Boucher, 2010-06-01. Many users of wireless devices and services spend money on a regular basis to contact colleagues, friends, or family members who are close by, such as in a warehouse or on a job site, at the mall, or out hiking or camping. Why spend the money when you can contact them for free? Canada's General Mobile Radio Service (GMRS) uses small UHF two-way radios for short-range wireless communications that cost nothing to the user. Without monthly service usage or licensing fees, GMRS is a perfect addition or substitute for other costly wireless services. For businesses, GMRS is perfect for short-range communications on a job site, in and around a warehouse or office building, and for all types of hospitality and retail applications. Personal safety, security operations, customer service, and management employee intercommunication are just some of the uses corporations, industries, and businesses will find useful from GMRS radios. For personal use, GMRS keeps all members of a group in communications with each other. Shopping in a mall, camping, fishing, hiking at a carnival or local event, traveling in two motor vehicles, or in and around the house are just a few of the extensive applications you will discover with GMRS radios. GMRS is also the perfect primary or backup radio communications system for public service, search and rescue, security intelligence, and military use. With twenty-two available channels and two watts of output power, GMRS radios are far less expensive than commercial handheld radio units of equal specifications. And GMRS gives personal users the freedom to access commercial-quality radio communications for a fraction of the price. All you pay for are the radios. No operating licensing or usage fees apply. Communications range over open water is around 8-10 km, with reduced range in rural or urban settings. Overall, communications range in a warehouse or building setting can cover approximately two hundred thousand square feet or about twenty floors of a building. *The Complete Guide to Canada's*
