**Ethics at the Beginning of Life** James Mumford, 2013-06-14 Many of the most controversial moral decisions we face hinge upon competing descriptions of life and never is this truer than at the beginning of life James Mumford draws upon phenomenology a branch of continental philosophy to question the descriptive adequacy the essential purchase upon reality of many of the approaches attitudes and arguments which make up beginning of life ethics today He argues that many of the most prevalent positions and practices in our late modern culture have simply failed to take into account the reality of human emergence the particular way that new members of our species first appear in the world Historically phenomenologists have been far more interested in death than in birth Mumford therefore first develops his own phenomenological investigation of human emergence taking leads and developing approaches from phenomenologists both French and German both living and dead In the second half of the book phenomenology is finally applied to ethics and acute moral questions are divided into two kinds first those concerning what it is that we are dealing and secondly the more contextual where questions relating to the situation in which the subject is found Finally although this book primarily constitutes a philosophical rather than a religious critique of contemporary ethics with the findings from continental

philosophy being brought to bear upon core convictions of English speaking liberal moral and political philosophers Mumford concludes by exploring an alternative theological basis for human rights which might fill the vacuum created Democracy to Come Fred Dallmayr, 2017-04-19 Democracy to Come lays the groundwork of a new understanding of modern democracy Rejecting the idea that democracy is a stable system fostered through regime change and the unidirectional transfer of concepts from the West to autocracies Fred Dallmayr argues democracy must be relational nurtured by different societies and cultures from within In turn democracy can never be a finished project but will always be about its potential The Routledge Handbook of Translation and Politics Jonathan Evans, Fruela Fernandez, 2018-04-19 The Routledge Handbook of Translation and Politics presents the first comprehensive state of the art overview of the multiple ways in which politics and translation interact Divided into four sections with thirty three chapters written by a roster of international scholars this handbook covers the translation of political ideas the effects of political structures on translation and interpreting the politics of translation and an array of case studies that range from the Classical Mediterranean to contemporary China Considering established topics such as censorship gender translation under fascism translators and interpreters at war as well as emerging topics such as translation and development the politics of localization translation and interpreting in democratic movements and the politics of translating popular music the handbook offers a global and interdisciplinary introduction to the intersections between translation and interpreting studies and politics With a substantial introduction and extensive bibliographies this handbook is an indispensable resource for students and researchers of translation theory politics and related areas *Latin America's New Historical Novel* Seymour Menton, 2010-07-22 Beginning with the 1979 publication of Alejo Carpentier's *El arpa y la sombra* the New Historical Novel has become the dominant genre within Latin American fiction In this at times tongue in cheek postmodern study Seymour Menton explores why the New Historical Novel has achieved such popularity and offers discerning readings of numerous works Menton argues persuasively that the proximity of the Columbus Quincentennial triggered the rise of the New Historical Novel After defining the historical novel in general he identifies the distinguishing features of the New Historical Novel Individual chapters delve deeply into such major works as Mario Vargas Llosa's *La guerra del fin del mundo* Abel Posse's *Los perros del paraíso* Gabriel García Márquez's *El general en su laberinto* and Carlos Fuentes' *La campaña* A chapter on the Jewish Latin American novel focuses on several works that deserve greater recognition such as Pedro Orgambide's *Aventuras de Edmund Ziller en tierras del Nuevo Mundo* Moacyr Scliar's *A estranha nação de Rafael Mendes* and Angelina Muñoz's *Tierra adentro* **Bartolomé de las Casas, O.P.**, 2018-12-10 Bartolomé de las Casas O.P. **The Killing of History** Keith Windschuttle, 1997 For 2 500 years since the time of Herodotus and Thucydides historians have sought to record the truth about the past Today however the discipline is suffering a potentially lethal attack from the rise to prominence of an array of French inspired literary and social theories each of which denies that truth and knowledge about the past are possible These theories claim the central point on which history was founded no longer holds there is no fundamental distinction between history and myth or between history and fiction Historians in classrooms from Berkeley to Paris have embraced these views and an increasing number of literary critics and social theorists now feel free to define their own work as history and to call themselves historians The result is revolutionary historians have not only changed how history is taught they are also increasingly obscuring the very facts on which the truth must be built In The Killing of History Keith Windschuttle offers both a devastating expose of the absurdity of these developments and a defense of the integrity of Western intellectual traditions which are now so widely attacked Windschuttle examines exactly what is being taught about Columbus discovery of the New World the history of asylums and prisons in Europe the fall of Communism in 1989 and the Battle of Quebec in 1759 He offers a much needed defense of traditional history as a properly scientific endeavor and argues that the great works of history should still be regarded as among the finest forms of Western literature

*Cross-cultural Conversation* Anindita Niyogi Balslev, 1996 The eleven essays in this collection address

various aspects of cross cultural studies Contributors were visiting scholars at the Center for Cultural Research at Aarhus University in Denmark The clarity provided by their reflections concerning both the rewards and limitations of cross cultural studies will be increasingly important now that we ve entered the pluralistic world of the new millennium *Deep Cosmopolis* Adam K. Webb,2015-05-15 Too often observers of globalization take for granted that the common ground across cultures is a thin layer of consumerism and perhaps human rights If so then anything deeper and more traditional would be placebound and probably destined for the dustbin of history But must this be so Must we assume as both liberals and traditionalists now tend to do that one cannot be a cosmopolitan and take traditions seriously at the same time This book offers a radically different argument about how traditions and global citizenship can meet and suggests some important lessons for the contours of globalization in our own time Adam K Webb argues that if we look back before modernity we find a very different line of thinking about what it means to take the whole world as one s horizon Digging into some fascinating currents of thought and practice in the ancient world the Middle Ages and the early modern period across all major civilizations Webb is able to reveal patterns of deep cosmopolitanism with its logic quite unlike that of liberal globalization today In their more cosmopolitan moments everyone from clerics to pilgrims to empire builders was inclined to look for deep ethical parallels points of contact among civilizations and traditions Once modernity swept aside the old civilizations however that promise was largely forgotten We now have an impoverished view of what it means to embrace a tradition and even what kinds of conversations across traditions are possible In part two Webb draws out the lessons of deep cosmopolitanism for our own time If revived it has something to say about everything from the rise of new non Western powers like China and India and what they offer the world to religious tolerance to global civil society to cross border migration *Deep Cosmopolis* traces an alternative strand of cosmopolitan thinking that cuts across centuries and civilizations It advances a new perspective on world history and a distinctive vision of globalization for this century which has the real potential to resonate with us all *Staging the Ottoman Turk* Esin Akalin,2016-10-11 In the wake of the fear that gripped Europe after the fall of Constantinople in 1453 English dramatists like their continental counterparts began representing the Ottoman Turks in plays inspired by historical events The Ottoman milieu as a dramatic setting provided English audiences with a common experience of fascination and fear of the Other The stereotyping of the Turks in these plays revolving around complex themes such as tyranny captivity war and conquests arose from their perception of Islam The Ottomans failure in the second siege of Vienna in 1683 led to the reversal of trends in the representation of the Turks on stage As the ascending strength of a web of European alliances began to check Ottoman expansion what then began to dazzle the aesthetic imagination of eighteenth century England was the sultan s seraglio with images of extravaganza and decadence In this book Esin Akalin draws upon a selective range of seventeenth and eighteenth century plays to reach an understanding both from a non European perspective and Western standpoint how one culture represents the other through discourse historiography and drama The

book explores a cluster of issues revolving around identity and difference in terms of history ideology and the politics of representation In contextualizing political cultural and intellectual roots in the ideology of representing the Ottoman Muslim as the West s Other the author tackles with the questions of how history serves literature and to what extent literature creates history     **Elizabeth Bishop** Susan McCabe,2010-11-01     Fred Dallmayr Farah Godrej,2017-06-26 Fred Dallmayr s work is innovative in its rethinking of some of the central concepts of modern political philosophy challenging the hegemony of a modern subjectivity at the heart of Western liberalism individualism and rationalism and articulating alternative voices claims and ideas His writings productively confound the logocentrism of Western modernity while providing alternative conceptions of political community that are post individualist post anthropocentric and relational The editor has focused on work in three key areas Critical phenomenology and the study of politics The first selections focus on the philosophical roots of Dallmayr s work in two of the most innovative intellectual trends of the twentieth century phenomenology and critical theory These chapters outline some of the main arguments advanced by practitioners of phenomenology particularly existential phenomenology as well the guiding ideas of critical theory and critical Marxism while tracing Dallmayr s debt to thinkers such as Heidegger Gadamer Habermas Adorno and Merleau Ponty Cross cultural theory These readings illustrate Dallmayr s explorations beyond the confines of Western culture as this phase of his thinking turns toward what is now called cross cultural or comparative political theory In an approach that maintains its linkage with critical phenomenology Dallmayr asserts that Western or European American political theory can no longer claim undisputed hegemony rather it must allow itself to be contested amplified and corrected through a comparison with non Western theoretical traditions and initiatives Cosmopolitanism These selections explore the final phase of Dallmayr s work in which he applies his insights on cross cultural studies to the context of global politics rebutting Samuel Huntington s clash of civilizations thesis and instead arguing for a cosmopolitanism that takes a middle path between both global universalism and restrictive particularism advocating sustained dialogue and respectful mutual learning between countries and civilizations
