The Official Battlestar Galactica Blueprints:

An Analytical Guide to Television's Battlestar Galactica John Kenneth Muir, 2015-09-15 When the space drama Battlestar Galactica debuted on ABC in 1978 it was expected to be the most popular new program of the year. Instead it was attacked as a Star Wars rip off and canceled after a mere 17 stories. The author acknowledges the show was full of dramatic clichés and scientific inaccuracies but despite these shortcomings Battlestar Galactica was a dramatically resonant series full of unique and individual characters such as Commander Adama, Lorne Greene, and ace warrior Captain Apollo. Richard Hatch. The author contends that Battlestar Galactica was a memorable attempt to make science fiction accessible to mainstream television audiences. The brilliant work of artist John Dykstra brought a new world of special effects to network television. Battlestar Galactica also skillfully exploited legends and names from both the Bible and ancient mythology which added a layer of depth and maturity to the weekly drama. The Official Battlestar Galactica Scrapbook James Neyland, 1978 *The Publishers Weekly*, 1979 **New Battlestar Galactica Vol. 2** Greg Pak, 2008-02-10 From Dynamite Entertainment writer Greg Pak and artist Nigel Raynor comes the second hardcover collection of New Battlestar Galactica. Collecting issues 5 through 8, the second story arc in the saga of the Returners, this hardcover collects the comics that serve as the best companion to the Peabody award winning Sci Fi series. Also includes a complete cover gallery. **Inspired Enterprise** Glen E. Swanson, 2025-08-01 Star Trek is a phenomenon. Spinoffs and reruns have been a near constant presence on international television for more than 50 years. More than a dozen feature films have been produced with many more on the way.

Battlestar Galactica: Designing Spaceships Paul Ruditis, Mark Wright, 2021-11-16 This new book goes behind the scenes on the award winning TV series Battlestar Galactica to discover the concepts behind the designs of dozens of spaceships. Battlestar Galactica debuted on TV in 1978 and acquired a phenomenal following, breaking new ground for TV drama and winning several awards. It returned to TV screens in 2003 in a critically acclaimed reimagined series with Time Magazine naming it one of the 100 Best TV Shows of All Time. This behind the scenes guide looks at the creation of the ships in both the original and the reimagined series, including vessels of the ragtag fleet and those of the Cylon enemy. Featuring artwork from the groundbreaking first series and the 2004 reimagined series, this volume explores the art of ship creation from the first sketches to the finished designs of the modelmakers. Covering 18 key ships from the two shows, including the Galactica itself, the Vipers, and the Cylon Raiders, the pages are packed with original concept art from designers Eric Chu, Andrew Probert, and legendary artist Ralph McQuarrie. **Toys & Prices, 2001** Elizabeth A. Stephan, 2000 A price guide to thousands of toys including Beanie babies, Star Wars, Hot Wheels, GI Joe, models, banks, games, lunch boxes, and restaurant premiums.
