Kenneth Morgan who began collecting Reiner's recordings while still a schoolboy has consulted printed and archival resources and undertaken new interviews with Reiner's associates critics and family Fritz Reiner Maestro and Martinet also offers the first close and systematic look at Reiner's recordings interpretations and musicality vividly characterizing Reiner's distinctive qualities as a conductor Jacket      *A Southern Life* Laurence G. Avery, 2017-02-15 This exceptional collection provides new insight into the life of North Carolina writer and activist Paul Green 1894-1981 the first southern playwright to attract international acclaim for his socially conscious dramas Green who taught philosophy and drama at the University of North Carolina at Chapel Hill won the Pulitzer Prize in 1927 for *In Abraham's Bosom* an authentic drama of black life Among his other Broadway productions were *Native Son* and *Johnny Johnson* From the 1930s onward Green created fifteen outdoor historical productions known as symphonic dramas thereby inventing a distinctly American theater form These include *The Lost Colony* 1937 which is still performed today Laurence Avery has selected and annotated the 329 letters in this volume from over 9 000 existing pieces The letters to such figures as Sherwood Anderson Langston Hughes Richard Wright John Dos Passos Zora Neale Hurston and others interested in the arts and human rights in the South are alive with the intellect buoyant spirit and sensitivity to the human condition that made Green such an inspiring force in the emerging New South Avery's introduction and full bibliography of the playwright's works and first productions give readers a context for understanding Green's life and times      *Women in American Operas of the 1950s* Monica A. Hershberger, 2023 The first feminist analysis of some of the most performed works in the American opera canon emphasizing the voices and perspectives of the sopranos who brought these operas to life In the 1950s composers and librettists in the United States were busy seeking to create an opera repertory that would be deeply responsive to American culture and American concerns They did not break free however of the age old paradigm so typically expressed in European opera that is of women as either saintly and pure or sexually corrupt with no middle ground As a result in American opera of the 1950s women risked becoming once again opera's inevitable victims Yet the sopranos who were tasked with portraying these paragons of virtue and their opposites did not always take them as their composers and librettists made them Sometimes they rewrote through their performances the roles they had been assigned Sometimes they used their lived experiences to invest greater authenticity in the roles With chapters on *The Tender Land* *Susannah* *The Ballad of Baby Doe* and *Lizzie Borden* this book analyzes some of the most performed yet understudied works in the American opera canon It acknowledges Catherine Clement's famous description of opera as the undoing of women while at the same time illuminating how singers like Beverly Sills and Phyllis Curtin worked to resist such undoing years before the official resurgence of the American feminist movement In short they ended up helping to dismantle powerful gendered stereotypes that had often reigned unquestioned in opera houses until then

*The I and Being Human* Norman Holland, 2017-07-05 The I in the title pertains to the core of self that persists over time. These are challenges that elude people like social scientists, philosophers, or critics of literature and the arts who would chronicle or explain humanity's doings. This informative, engaging, and joyous book by Norman N. Holland offers a usable model for the aesthetics, psychology, history, and science of the human subject. Holland begins by modeling the self as a theme and variations, constant yet constantly changing. He shows how symbolization, perception, cognition, and memory all contribute to the sense of I; hence, how any one I grows out of a specific history and culture but also out of experiences all humans share. Holland proposes a scientific psychology based on his model, fusing the experiments of academic psychology with the insights of psychoanalysis. He illustrates his theory by the lives of George Bernard Shaw, Scott Fitzgerald, and other writers, as well as Freud's patient Little Hans, in adulthood, a famed stage director at the Metropolitan Opera. *The I and Being Human* attempts nothing less than to draw together aspects of the self, such as objectivity and subjectivity, that have eluded connection. In so doing, Norman Holland offers a rereading of psychoanalysis as a theory of the I.

*The Girl who Committed Hara-Kiri and Other Clinical and Historical Essays* Franco Borgogno, 2018-03-08 This book bears witness to the author's psychoanalytic journey from the years 1994-1995 to the present and, as such, is a completion and a continuation of his previous *Psychoanalysis as a Journey* of 1999. The book is divided into two parts: one clinical and the other theoretical. The two parts are connected to each other since the concepts and authors on whom the second theoretical/clinical part are focused make up the tools of the trade that the author utilizes in the first part to describe his work with patients. In particular, the author describes his work with M, who is the protagonist of many of these pages. The first clinical part contains the text, more or less unmodified, of the analytic paper that the author presented fifteen years ago in order to be appointed a training and supervising analyst.

*Pioneers of Child Psychoanalysis* Beatriz Markman Reubins, 2018-04-17 This book describes the lives and theories of the pioneer child psychoanalysts who created the field of child psychoanalysis and contributed to the understanding of child development. It aims to expose emerging professionals in the field of psychoanalysis to theories of infant experiences.

**A New Philosophy of Opera** Yuval Sharon, 2024-09-03 Sharon challenges the status quo and proposes radical new ways to present operas, new and old. Expect insight, originality, and some contentious views that will stimulate debate. Richard Fairman, *Financial Times* Best Books of 2024. From the most imaginative director in the US, *New York Times* comes this generational work with a vision for transforming opera into a powerhouse cultural phenomenon. This book builds a compelling roadmap for the future of opera and how it can truly be accessible for everyone. Gustavo Dudamel, known as opera's disrupter in residence, director Yuval Sharon has never adhered to the art form's conventions. In his many productions in both the United States and Europe, he constantly challenges the perception of opera as aloof by urging, among other things, performing operas in non-places such as parking lots, encouraging the use of amplification, and shuffling the traditional structure of classic works like performing Puccini's *La bohème* in reverse order, ending not with the tubercular

heroine Mimi's death but with her first falling in love With *A New Philosophy of Opera* Sharon has crafted a radical and refreshing book that can act as an introduction to the art form for the culturally curious or as a manifesto for his fellow artists In an engaging style that ranges from the provocative to the personal Sharon offers a 360 degree view of the art form from the audience experience to the artist's process from its socially conscious potential to its economic reality and from its practical to its emotional and spiritual dimensions Surveying the role of opera in the United States and drawing on his experiences from Berlin to Los Angeles Sharon lays out his vision for an anti elite opera that celebrates the imagination and challenges the status quo With an illustrated and unconventional history of the art form not following a straight line but tracing a fantastical time curve weaving throughout the book Sharon resists the notion of the opera as dying and instead portrays it as a glorious chaos constantly being reborn and reshaped With its advocacy of opera as an enchanted space and its revolutionary message *A New Philosophy of Opera* is itself a work of art a living book with profound philosophical implications that will stand the test of time      *The Future of America's Political Parties* Andrew Busch, 2007-01-01 *The Future of America's Political Parties* tackles a question certain to occupy citizens and students of politics for years to come Where do the parties stand in relation to their historic ideals the voters and each other Specific issues include Democratic vulnerabilities on moral values and national security Republican disillusionment with compassionate conservatism the challenges of the new campaign finance regimen the future of party organization and the role of cultural issues in the parties
