The Original Vermonters Native Inhabitants Past And Present:

The Original Vermonters William A. Haviland, Marjory W. Power, 1994 In a thoroughly enjoyable and readable book Haviland and Power effectively shatter the myth that Indians never lived in Vermont Library Journal **Vermont Women, Native Americans & African Americans** Cynthia D. Bittinger, 2012-05-15 In the earliest days of America's founding Vermont stands out a constitution that banned slavery outright and allowed those without land the right to vote created a fertile ground for those cast aside in neighboring states women native american and african american people to thrive and to lead Vermont's constitution drafted in 1777 was one of the most enlightened documents of its time but in contrast the history of Vermont has largely been told through the stories of influential white men This book takes a fresh look at Vermont's history uncovering hidden stories from the earliest inhabitants to present day citizens striving to overcome adversity and be advocates for change Native Americans struggled to maintain an identity in the state while their land and rights were disappearing Lucy Terry Prince was the first female African American poet who rose above racism to argue her case before Vermont's governor and won Educator and historian Cynthia Bittinger unearths these and other inspirational stories of the contributions of women Native Americans and African Americans to Vermont's history **Breeding Better Vermonters** Nancy L. Gallagher, 1999 The disturbing story of eugenics in Vermont and the dark side of progressive social reform

Reading the Mountains of Home John Elder, 1998 Small farms once occupied the heights that John Elder calls home but now only a few cellar holes and tumbled stone walls remain among the dense stands of maple beech and hemlocks on these Vermont hills Reading the Mountains of Home is a journey into these verdant reaches where in the last century humans tried their hand and where bear and moose now find shelter As John Elder is our guide so Robert Frost is Elder's companion his great poem Directive seeing us through a landscape in which nature and literature loss and recovery are inextricably joined Over the course of a year Elder takes us on his hikes through the forested uplands between South Mountain and North Mountain reflecting on the forces of nature from the descent of the glaciers to the rush of the New Haven River that shaped a plateau for his village of Bristol and on the human will that denuded and farmed and abandoned the mountains so many years ago His forays wind through the flinty relics of nineteenth century homesteads and Abenaki settlements leading to meditations on both human failure and the possibility for deeper communion with the land and others An exploration of the body and soul of a place an interpretive map of its natural and literary life Reading the Mountains of Home strikes a moving balance between the pressures of civilization and the attraction of wilderness It is a beautiful work of nature writing in which human nature finds its place where the reader is invited to follow the last line of Frost's Directive to Drink and be whole again beyond confusion *Bioregionalism* Michael Vincent McGinnis, 2005-07-28 Bioregionalism is the first book to explain the theoretical and practical dimensions of bioregionalism from an interdisciplinary standpoint focusing on the place of bioregional identity within global politics Leading contributors from a broad range of disciplines introduce this exciting new

concept as a framework for thinking about indigenous peoples local knowledge globalization science global environmental issues modern society conservation history education and restoration Bioregionalism s emphasis on place and community radically changes the way we confront human and ecological issues **The Great Encounter** Jayme A. Sokolow,2003 By putting the story of the native Americans and their encounters with Europeans at its centre this work explores a new history in which the indigenous peoples become vibrant and vitally important components of the British French Spanish and Portuguese empires **Ira Allen** J. Kevin Graffagnino,2024-09-13 Land speculator revolutionary pamphleteer politician and empire builder Ira Allen 1751 1814 was a key figure on the Green Mountain frontier In a remarkable Vermont pioneer generation that included such noteworthy leaders as Ethan Allen Thomas Chittenden Moses Robinson Isaac Tichenor and Stephen Row Bradley Ira Allen stood out for his extraordinary energy vision and accomplishments He helped create and sustain the independent State of Vermont held such important state offices as treasurer surveyor general and member of the Governor s Council published hundreds of pages defending Vermont against a host of internal and external enemies and represented Vermont in negotiations with the British Empire other American states and Congress As an entrepreneur Allen amassed a Champlain Valley land portfolio of 120 000 acres and dreamed of developing the commercial and industrial potential of northwestern Vermont to establish profitable trade networks with Canada England and France When his financial reach exceeded his grasp in the 1790s he devised an audacious plan for a French Canadian rebellion against British authority that he hoped would restore his fortunes and turn his dreams into reality At the end of his life alone and destitute in Philadelphia Allen remained true to his revolutionary roots throwing his support behind an ill fated filibustering expedition against Mexican control of what two decades later became Texas J Kevin Graffagnino s biography ably details Ira Allen s extraordinary life As the first published examination of Allen s career in nearly a century this book shines new light on Allen and his prominent role in Vermont s formative decades **The Boundaries Between Us** Daniel P. Barr,2006 Although much has been written about the Old Northwest *The Boundaries between Us* fills a void in this historical literature by examining the interaction between Euro Americans and native peoples and their struggles to gain control of the region and its vast resources Comprised of twelve original essays *The Boundaries between Us* formulates a comprehensive perspective on the history and significance of the contest for control of the Old Northwest The essays examine the socio cultural contexts in which natives and newcomers lived tradod negotiated interacted and fought delineating the articulations of power and possibility difference and identity violence and war that shaped the struggle The essays do not attempt to present a unified interpretation but rather focus on both specific and general topics revisit and reinterpret well known events and underscore how cultural political and ideological antagonisms divided the native inhabitants from the newcomers Together these thoughtful analyses offer a broad historical perspective on nearly a century of contact interaction conflict and displacement the history of early America the frontier and cultural interaction Colonial Wars of North America, 1512-1763 (Routledge
