Social Fragmentation Political Hostili:

Participation and Political Equality Sidney Verba, Norman H. Nie, Jae-on Kim, 1978-10-31 In this survey of political participation in seven nations Nigeria Austria Japan India the Netherlands Yugoslavia and the United States the authors examine the relationship between social economic and educational factors and political participation The book provides insight into an ongoing debate among political scientists and sociologists why is political participation in some nations distributed evenly across economic social and educational lines whereas other nations foster participation only by their privileged classes The book treats politics not only as a dependent variable influenced by socioeconomic factors but also as an independent variable that affects levels of political participation through variations in party systems and linkages between parties and other organizations

In Search of Political Stability Edmund A. Aunger, 1981 **The Sokagakkai and Mass Society** James Wilson White, 1970 A Stanford University Press classic **Dilemmas of Pluralist Democracy** Robert A. Dahl, 1983-09-10 Continuing his career long exploration of modern democracy Dahl addresses a question that has long vexed students of political theory the place of independent organizations associations or special interest groups within the democratic state The Wilson Quarterly There is probably no greater expert today on the subject of democratic theory than Dahl His proposal for an ultimate adoption here of a decentralized socialist economy a system primarily of worker ownership and control of economic production is daring but rational reflecting his view that economic inequality seems destined to become the major issue here it historically has been in Europe Library Journal Dahl reaffirms his commitment to pluralist democracy while attempting to come to terms with some of its defects Laura Greyson Worldview Anyone who is interested in these issues and who makes the effort the book requires will come away the better for it And more He will receive an explanation for our current difficulties that differs considerably from the explanation for our current difficulties that differs considerably from the explanation offered by the Reagan administration and a prescription for the future which differs fundamentally from the nostrums emanating from the White House Dennis Carrigan The Louisville Kentucky Courier Journal

Politics in Austria Richard Luther, Wolfgang C. Mueller, 2014-04-08 First Published in 1992 This is a collection of eight articles looking at consociationalism in the Austrian political system Areas covered are the decline of the Lager Mentality parties and the party system governmental institutions changing priorities in Austrian economic policy Austria in the European arena and the success of consociationalism Austria 1867-1955 John W. Boyer, 2022-09-15 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The

decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

Austria in the Twentieth Century Gino Germani, 2017-09-08 These fourteen essays by leading Austrian historians and political scientists serve as a basic introduction to a small but sometimes trend setting European country They provide a basic up to date outline of Austria's political history shedding light on economic and social trends as well No European country has experienced more dramatic turning points in its twentieth century history than Austria This volume divides the century into three periods The five essays of Section I deal with the years 1900 1938 Under the relative tranquility of the late Habsburg monarchy seethed a witch's brew of social and political trends signaling the advent of modernity and leading to the outbreak of World War I and eventually to the collapse of the Habsburg Empire The First Austrian Republic was one of the succession states that tried to build a nation against the backdrop of political and economic crisis and simmering civil war between the various political camps Democracy collapsed in 1933 and an authoritarian regime attempted to prevail against pressures from Nazi Germany and Nazis at home The two essays in Section II cover World War II 1938 1945 In 1938 Hitler's Third Reich annexed Austria and the population was pulled into the cauldron of World War II fighting and collaborating with the Nazis and also resisting and fleeing them The seven essays of Section III concentrate on the Second Republic 1945 to the present After ten years of four power Allied occupation Austria regained her sovereignty with the Austrian State Treaty of 1955 The price paid was neutrality Unlike the turmoil of the prewar years Austria became a normal nation with a functioning democracy one building toward economic prosperity After the collapse of the iron curtain in 1989 Austria turned westward joining the European Union in 1995 Most recently with the advent of populist politics Austria's political system has experienced a sea of change departing from its political economy of a huge state owned sector and social partnership as well as Proporz This informed and insightful volume will serve as a textbook in courses on Austrian German and European history as well as in comparative European politics

The Austrian Party System Anton Pelinka, Fritz Plasser, 2019-09-05 First published in 1989 Political science in Austria is a relatively young discipline It began to gradually establish itself in the 60's and only as recently as 1971 was it anchored in the curriculum of Austrian universities as a separate field of study With the present book in English the editors hope to stimulate the interest of international social scientists in Austria to overcome language barriers and to make the topical problems and developments of Austrian democracy accessible to an international reading public The book is intended to reflect the current state of a discipline political science However it is also to be a contribution to the further development of this discipline It should stimulate further intensive and critical occupation with the theme parties and the party system in Austria
