**Democratic Leadership in Education** Philip Woods, 2005-10-03 This is an important book for anyone who is serious about introducing or sustaining democratic leadership in schools Busy practitioners will get much from it by going straight to the chapters about how democratic leadership could be made to work Kate Myers Times Educational Supplement I found this an interesting and stimulating book The book's ideas are a useful counterpoint to some of the daft notions of macho leadership and management being peddled in education and indeed the public sector more widely Woods book has the merits that though radical it seeks to base its recommendations in the real world and to argue that there are possibilities for change that can bring about real improvements in everyone's experience and outcomes Matching the rhetoric of democracy with reality or at least making them closer might also improve the quality of our political process and hence increase interest and reduce cynicism about politics something which surely should be welcomed Woods agenda is significant and his book certainly worth reading ESCalate Philip Woods productively refocuses our attention not on heroes and visions but on how we understand and practise within educational institutions in ways that are social and relational He provides a realistic and yet challenging analysis of democratic leadership in ways that speak to practitioners policy makers and researchers We deal everyday with issues of social justice and Philip Woods shows us how we might think differently about it and so work for a better system of learning and schooling Professor Helen Gunter School of Education University of Manchester Not another bunny but a welcome academic fox Kevin Avison Steiner Waldorf Schools Fellowship The theory and practice of democracy and democratic leadership have implications for how we understand what ought to be counted as improving schools In this book the author focuses on the idea of democratic leadership He examines what is meant by democratic leadership and what forms it can take and shows how it is relevant to school education and learning The author shows how the ideals and theories of democratic leadership can translate into practice and sets out some of the challenges that democratic leadership poses in the context of contemporary education This book challenges many of the assumptions inherent in educational policy and conventional approaches to leadership It is about understanding and exploring both the idea of democratic leadership and its practical relevance through examples drawn from practice and research This book is for practitioners and students on

professional development and academic courses It will be essential reading for all policy makers academics and others such as inspectors who critically examine leadership and management of educational institutions Every now and then a book is written in the field of leadership that stands out says something different is coherent original and makes us really ponder and think This is such a book it will provoke policy makers academics experienced practitioners and advanced students Cambridge Journal Education

*The Psychology of Education* Martyn Long, Clare Wood, Karen Littleton, Terri Passenger, Kieron Sheehy, 2010-11-05 Written in an accessible and engaging style this second edition of *The Psychology of Education* addresses key concepts from psychology which relate to education Throughout the text the author team emphasise an evidence based approach providing practical suggestions to improve learning outcomes while fictional case studies are used in this new edition to provide students with a sense of what psychological issues can look like in the classroom Activities around these case studies give students the chance to think about how to apply their theoretical knowledge to these real world contexts Key implications are drawn out at appropriate points and throughout the book students are provided with strategies for interrogating evidence Key terms are glossed throughout the book and chapters are summarised and followed by suggestions for further reading A chapter on Learning interactions and social worlds is new to this edition The following chapters have all been extensively updated Learning Assessment Individual differences and achievement Student engagement and motivation The educational context Society and culture Language Literacy Inclusive education and special educational needs Behaviour problems Dealing with behaviour problems This book is essential reading for undergraduate students of Education Studies and Psychology as well as trainee teachers on BA BEd and PGCE courses It will also be of use to postgraduates training to be educational psychologists
