**Social Partnerships for Training** Andrew Sharpe, Rodney S. Haddow, 1997 Considers obstacles and opportunities associated with active labour market policies in Canada *State Feminism, Women's Movements, and Job Training* Amy Mazur, 2001 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Federalism in Action** Donna E. Wood, 2018-04-13 Every developed country has a public employment service that connects job seekers with employers through information placement and training support services In *Federalism in Action* Donna E Wood assesses how Canada s public employment service is performing after responsibility was transferred from the federal government to provinces territories and Aboriginal organizations between 1995 and 2015 Drawing upon over twenty years of data Wood reveals the governance choices provinces made the reasons behind these choices and the outcomes they achieved Provincial decisions regarding employment programming is an important public policy issue about which little is known and even less understood within the context of Aboriginal communities *Federalism in Action* includes analytical comparisons of Canada s employment programming with the United States Australia and the European Union as well as information from insightful interviews with key informants from every province In firmly placing Canada within the extensive international literature on the governance of welfare to work policies this book makes an important new contribution to research **Federalism, Democracy and Labour Market Policy in Canada** Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, Queen's University (Kingston, Ont.). School of Policy Studies, 2000 In *Federalism Democracy and Labour Market Policy in Canada* the authors provide comprehensive assessments of the current state of governance within the areas of income support for the unemployed active labour market measures and youth policy The analysis focuses on how the current state of governance reflects a combined commitment to specific social policy goals principles of federalism and democratic oversight of the policy making process This volume sheds new light on the complex nature of the intergovernmental regimes governing labour market policy It makes recommendations concerning how different governance structures might better serve both Canadians and the federation *Partisanship, Globalization, and Canadian Labour Market Policy* Rodney S. Haddow, Thomas Richard Klassen, 2006-01-01 Using various theoretical approaches this book examines industrial relations workers compensation occupational health employment standards training and social assistance measuring the impact of partisanship and globalization on policy making in several areas It is useful for those interested in the field of labour market policy **Employment Policies and Multilevel Governance** Roger Blanpain, Juan Pablo Landa, Brian Langille, Philippe Auvergnon, 2009-01-01 Compares multilevel manpower and social policy in five EU member states with one chapter also on the Canadian federal model **Making EI Work** Keith Banting, Jon Medow, 2013-04-08 Since the inception and design of Canada s Employment Insurance EI program the Canadian economy and labour market have undergone dramatic changes It is clear that EI has not kept pace with those changes and experts and advocates agree that the program is no longer effective

or equitable Making EI Work is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths weaknesses and future directions of EI The authors identify the strengths and weaknesses of the system and consider how it could be improved to better and more fairly support those in need They make suggestions for facilitating a more efficient Canadian labour market and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future The chapters that comprise Making EI Work informed the task force s final recommendations and form an engaging dialogue that makes the case for and defines the parameters of a reformed support system for Canada s unemployed Contributors include Ken Battle Caledon Institute of Social Policy Robin Boadway Queen s University Allison Bramwell University of Toronto Sujit Choudhry New York University School of Law Kathleen M Day University of Ottawa Ross Finnie University of Ottawa Jean Denis Garon Queen s University David Gray University of Ottawa Morley Gunderson University of Toronto Ian Irvine Concordia University Stephen Jones McMaster University Thomas R Klassen York University Michael Mendelson Caledon Institute of Social Policy Alain Noël Université de Montréal Michael Pal University of Toronto Faculty of Law W Craig Riddell University of British Columbia William Scarth McMaster University Luc Turgeon University of Ottawa Leah F Vosko York University Stanley L Winer Carleton University Donna E Wood University of Victoria and Yan Zhang Statistics Canada

**Federalism and Labour Market Policy** Alain Noël, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 2004 Though these countries vary significantly in both their federal institutions and labour market policies they all seek to define a relatively coherent approach for federal and sub unit governments in a policy field where collaboration and coordination appear unavoidable In some cases such as Germany collaboration is highly developed and policies are ambitious and integrated in others such as Switzerland diversity and decentralization are privileged and policies remain fragmented Finally there are countries such as the United States that do not grant much importance to labour market policies these five federations and so help us understand how political institutions and public policies are inter related Federalism and labour market policies certainly influence each other but there is no simple relationship between them Comparing different governance and employment strategies is nevertheless very instructive because it shows the range of approaches and policies that are possible in federal countries

Labour Market Policies and the Public Employment Service OECD, 2001-02-01 This book presents the proceedings of a conference on Labour Market Policies and the Public Employment Service

*Workfare States* Jamie Peck, 2001-02-13 This book examines the political economy of workfare the umbrella term for welfare to work initiatives that have been steadily gaining ground since candidate Bill Clinton s 1992 promise to end welfare as we know it Peck traces the development diffusion and implementation of workfare policies in the United States and their export to Canada and the United Kingdom He explores how reforms have been shaped by labor markets and political conditions how gender and race come into play and how local programs fit into the broader context of neoliberal economics and globalization The book

cogently demonstrates that workfare rarely involves large scale job creation but is more concerned with deterring welfare claims and necessitating the acceptance of low paying unstable jobs Integrating labor market theory critical policy analysis and extensive field research Peck exposes the limitations of workfare policies and points toward more equitable alternatives

Building the Social Union University of Regina. Canadian Plains Research Center, Saskatchewan Institute of Public Policy, 2002 An analysis of SUFA the social union framework agreement signed in 1999 by the federal government and nine provincial governments Regional Innovation Systems Hans-Joachim Braczyk, Philip Cooke, Martin Heidenreich, 2003-09-02 Since 1995 there has been a worldwide innovation led boom and subsequent slump meaning enormous change in regional economies The new edition registers this change and provides an interesting test of the robustness of the original arguments

Innovation and Social Learning M. Gertler, D. Wolfe, 2002-05-22 How well suited are the institutions of a region nation or international regime to the task of coping with the dramatic changes currently underway in the global economy This volume examines this issue Overpromising and Underperforming? Peter Graefe, Julie Simmons, Linda A. White, 2013-01-08 Public reporting has been used experimentally in federal provincial relations since the mid 1990s as an accountability mechanism to promote policy effectiveness intergovernmental cooperation and democratic legitimacy Our understanding of how well it is working however remains limited to very specific policy sectors even though this information is essential to policy makers in Canada and beyond Overpromising and Underperforming offers a deeper analysis of the use of new accountability mechanisms paying particular attention to areas in which federal spending power is used This is the first volume to specifically analyse the accountability features of Canadian intergovernmental agreements and to do so systematically across policy sectors Drawing on the experiences of other federal systems and multilevel governance structures the contributors investigate how public reporting has been used in various policy fields and the impact it has had on policy making and intergovernmental relations **Regional Innovation Systems** Philip N. Cooke, Martin Heidenreich, Hans-Joachim

Braczyk, 2004 Since the first edition of this book in 1995 there has been a worldwide innovation led economic boom and a subsequent slump meaning enormous change has also occurred at the level of regional economies The new edition registers this change and provides an interesting test of the robustness of the original arguments in the book Not least more industrial policy making is influenced by the RIS analysis and many national and regional governments have adopted RIS approaches along with related instruments like promotion of industry clusters academic entrepreneurship regional venture capital and science led development strategies *Divided Province* Greg Albo, Bryan M. Evans, 2019-02-28 No government jurisdiction in Canada has so radically transformed its public policies over the past decades as Ontario and yet the province has also maintained a striking degree of political stability in its party system Since the 1990s neoliberalism has been the point of reference in constructing policy agendas for all of Ontario's political parties It has guided the strategy for governance of the dominant Liberal Party since 2003 even as it divides the province between workers and employers north and south rural and

urban and racialized minorities and the majority population With a focus on the governments of Mike Harris Dalton McGuinty and Kathleen Wynne *Divided Province* brings together leading researchers to dissect the province's public policies since the 1990s Presenting original state of the art research the book demonstrates that although the Conservative government of Mike Harris implemented the sharpest and most profound shift towards the establishment of a neoliberal regime in the province the subsequent Liberal governments consolidated that neoliberal turn The essays in this volume explore the consequences of this ideological turn across a spectrum of policies including health education poverty energy employment manufacturing and how it has impacted workers women First Nations and other distinct communities The first book to offer a comprehensive critical account of neoliberalism in Ontario *Divided Province* overturns conventional readings of the province's politics and suggests that building a more democratic and egalitarian alternative to the current orthodoxy requires nothing less than a radical rupture from existing policies and political alliances Without such a decisive break political space may well open up again for the populist right
