*Canadian Intellectuals, the Tory Tradition, and the Challenge of Modernity, 1939-1970* Philip Massolin, 2015-05-27 In this well researched book Philip Massolin takes a fascinating look at the forces of modernization that swept through English Canada beginning at the turn of the twentieth century Victorian values agrarian religious and the adherence to a rigid set of philosophical and moral codes were being replaced with those intrinsic to the modern age industrial secular scientific and anti intellectual This work analyses the development of a modern consciousness through the eyes of the most fervent critics of modernity adherents to the moral and value systems associated with Canada's tory tradition The work and thought of social and moral critics Harold Innis Donald Creighton Vincent Massey Hilda Neatby George P Grant W L Morton Northrop Frye and Marshall McLuhan are considered for their views of modernization and for their strong opinions on the nature and implications of the modern age These scholars shared concerns over the dire effects of modernity and the need to attune Canadians to the realities of the modern age Whereas most Canadians were oblivious to the effects of modernization these critics perceived something ominous far from being a sign of true progress modernization was a blight on cultural development In spite of the efforts of these critics Canada emerged as a fully modern nation by the 1970s Because of the triumph of modernity the toryism that the critics advocated ceased to be a defining feature of the nation's life Modernization in short contributed to the passing of an intellectual tradition centuries in the making and rapidly led to the ideological underpinnings of today's modern Canada

play for youth in terms of their identities including racialization How does multiculturalism play out in educational policy and the classroom in Canada These central questions are addressed by contributions from some of Canada's leading scholars and researchers in philosophy psychology sociology history education religious studies youth studies and Canadian studies The authors theorize and discuss the debates and critiques surrounding multiculturalism in Canada and include some very important case studi

**Health Inequities in Canada** Olena Hankivsky,2011-05-01 There is a growing recognition that existing theories on and approaches to health inequities are limited in their ability to capture how they are produced through changing co constituted and intersecting effects of multiple forms of oppression Intersectionality considers the interactions and combined impacts of social locations and structural processes on the creation and perpetuation of inequities This volume brings together activists scholars and community based researchers to apply interpretations of intersectionality to health and organizational governance cases By addressing specific health issues it demonstrates that inequities cannot be understood

**Multiculturalism and Immigration in Canada** Elspeth Cameron, 2004 Multiculturalism in Canada offers a solid introduction to the history and development of the ideology of multiculturalism in Canada This ideology which has become the primary designator of Canadian society began in the early 1970s when vocal elements in the population who were neither English nor French strongly responded to the investigations of the Committee

on Bilingualism and Biculturalism Given Canada's early racist tendencies the establishment of multiculturalism was a remarkable shift in public thinking Many issues associated with immigration have arisen in the public debates around multiculturalism Some people are convinced that it is a pernicious ideology that enforces the ghettoisation of those different from the mainstream Others see dangers in the way some aspects of multiculturalism are merely tokens of an all inclusive society Still others contend that the voices of ethnicities aside from those of the two charter groups English and French are scarcely heard and that worse those marginalised voices are appropriated by mainstream writers On the whole however Canadians especially younger Canadians welcome a liberal outlook that is inclusive of a wide variety of ethnicities For them and for many immigrants Canada is a society that is multiple and layered one rich in meaning They tend to see Canada as a microcosm of the larger world one that presents a useful model of tolerance for the world at large Increasingly marginalised new Canadians are excelling in the arts communities telling all Canadians what various aspects of the culture shock of transplantation feels like This book includes a representative sample of their works      *The Cambridge Handbook of Social Problems: Volume 2* A. Turner, 2005-09-07 Annotation Covers over 500 topics important to Canadian social work Written by a highly diverse group of experts and covering all aspects of the field nation wide      *The Trajectories of Rural Life* University of Regina. Canadian Plains Research Center, Saskatchewan Institute of Public Policy, 2003 Rural communities have been profoundly affected by recent political economic demographic and cultural change In Canada the impacts of these changes are all about us in the absolute population declines in Saskatchewan and Newfoundland in the crises of the east and west coast fisheries in the farm crisis in serious ecological problems and in the reorientation of rural social services There is a tendency to view these problems in stark terms as part of a qualitatively new era in Canadian history triggered perhaps by the forces of globalization or urbanization or the rise of the service sector economy In important ways however the problems of rural Canada are not particularly new Rural migration pollution wildlife conservation and other matters have been long standing persistent concerns of rural Canadians This book attempts to both resist the seemingly persistent urge to romanticize and prognosticate about rural Canada and the people who live geographically outside the urban environment and suggest different ways of

looking at rural life In this sense its goal is to build upon an increasingly strong base of research and writing on rural Canada to suggest different perspectives on the countryside the small town the environment and the landscape Challenge ,1976
