Social Theory Psychoanalysis And Racism:

Social Theory, Psychoanalysis and Racism Simon Clarke, 2017-03-04 Sociological explanations of racism tend to concentrate on the structures and dynamics of modern life that facilitate discrimination and hierarchies of inequality. In doing so they often fail to address why racial hatred arises as opposed to how it arises as well as to explain why it can be so visceral and explosive in character. Bringing together sociological perspectives with psychoanalytic concepts and tools, this text offers a clear, accessible and thought-provoking synthesis of varieties of theory with the aim of clarifying the complex character of racism, discrimination and social exclusion in the contemporary world. **Emotion, Politics and Society** Simon

Thompson, 2006-04-12 This timely book critically addresses the intersection between power, politics and emotions. Challenging traditional dichotomies which counterpose rationalist to non-rationalist epistemologies, it offers a sustained argument for a more complete and integrated rationalism and helps us understand emotions in contemporary social and political life. *Routledge Handbook of Psychoanalytic Political Theory* Yannis Stavrakakis, 2019-09-05 The emerging field of psychoanalytic political theory has now reached a stage in its development and rapid evolution that deserves to be registered systematically, defined and critically evaluated. This Handbook provides the first reference volume which showcases the current state of psychoanalytic political theory, maps the genealogy of its development, identifies its conceptual and methodological resources and highlights its analytical innovations as well as its critical promise. The Handbook consists of 35 chapters offering original, comprehensive and critical reviews of this field of study. The chapters are divided into five thematic sections. Figures discusses the work of major psychoanalytic theorists who have influenced considerably the development of psychoanalytic political theory. Traditions genealogically recounts and critically reassesses the many attempts throughout the 20th century of experimenting with the articulation between psychoanalysis and political theory in a consistent way. Concepts asks what are the concepts that psychoanalysis offers for appropriation by political theory. Themes presents concrete examples of the ways in which psychoanalytic political theory can be productively applied in the analysis of racism, gender, nationalism, consumerism etc. Challenges. Controversies captures the ways in which psychoanalytic political theory can lead the way towards theoretical and analytical innovation in many disciplinary fields dealing with cutting edge issues. The *Routledge Handbook of Psychoanalytic Political Theory* will serve as a scholarly reference volume for all students and researchers studying political theory, psychoanalysis and the history of ideas. A Critical Psychology of the Postcolonial Derek Hook, 2012-03-15 An oft neglected element of postcolonial thought is the explicitly psychological dimension of many of its foundational texts. This unprecedented volume explores the relation between these two disciplines by treating the work of a variety of anti colonial authors as serious psychological contributions to the theorization of racism and oppression. This approach demonstrates the pertinence of postcolonial thought for critical social psychology and opens up novel perspectives on a variety of key topics in social psychology. These include the psychology of embodiment and racialization resistance strategies to oppression extra discursive facets of racism the unconscious dimension of stereotypes the intersection of psychological and symbolic modalities of power. In addition the book makes a distinctive contribution to the field of postcolonial studies by virtue of its eclectic combination of authors drawn from anti apartheid psychoanalytic and critical social theory traditions including Homi Bhabha Steve Biko J M Coetzee Frantz Fanon Julia Kristeva Chabani Manganyi and Slavoj Žižek. The South African focus serves to emphasize the ongoing historical importance of the anti apartheid struggle for today's globalized world. A Critical Psychology of the Postcolonial is an invaluable text for social psychology and sociology students enrolled in courses on racism or cultural studies. It will also appeal to postgraduates academics and anyone interested in psychoanalysis in relation to societal and political issues.

Power, Politics and the Emotions Shona Hunter,2015-06-05

How can we rethink ideas of policy failure to consider its paradoxes and contradictions as a starting point for more hopeful democratic encounters Offering a provocative and innovative theorisation of governance as relational politics the central argument of Power Politics and the Emotions is that there are sets of affective dynamics which complicate the already materially and symbolically contested terrain of policy making This relational politics is Shona Hunter s starting point for a more hopeful but realistic understanding of the limits and possibilities enacted through contemporary governing processes Through this idea Hunter prioritises the everyday lived enactments of policy as a means to understand the state as a more differentiated and changeable entity than is often allowed for in current critiques of neoliberalism But Hunter reminds us that focusing on lived realities demands a melancholic confrontation with pain and the risks of social and physical death and violence lived through the contemporary neoliberal state This is a state characterised by the ascendancy of neoliberal whiteness a state where no one is innocent and we are all responsible for the multiple intersecting exclusionary practices creating its unequal social orderings The only way to struggle through the central paradox of governance to produce something different is to accept this troubling interdependence between resistance and reproduction and between hope and loss Analysing the everyday processes of this relational politics through original empirical studies in health social care and education the book develops an innovative interdisciplinary theoretical synthesis which engages with and extends work in political science cultural theory critical race and feminist analysis critical psychoanalysis and post material sociology
