weaving their responses to these commentators with new scholarship on bibliometrics that has recently appeared This unique book is a valuable aid for social work scholars Drawing on broad interdisciplinary streams of scholarship from around the world the collection illuminates a field that is not well known to social workers While cautiously advocating for a number of applications of the technique the authors balance this position by presenting a comprehensive summary of the criticisms of the technique and by the inclusion of a series of critical commentaries by the leading experts on these issues in the field of social work Bibliometrics in Social Work both summarizes what we know and pushes the field to think about how social work professionals can use this approach to improve our scholarship and the evaluation of scholars Bibliometrics in Social Work addresses theoretical and methodological issues pros and cons from the view of numerous bibliometric scholars bibliometrics outside of social work applications within social work previously reported in the literature estimates that have been reported in the literature of how much social workers publish and how much impact those publications have had how citation analysis can be used to analyzed a selection of publications in a single journal and their subsequent impact how citation analysis might be used to improve academic employment decisions concerns regarding self citation and multiple authorship measurement issues in bibliometrics e g age adjustments concentration citedness and uncitedness the Price Index lag times persistence synchronous and diachronous self citations the Multiple Author Qualifier Bibliometrics in Social Work critically examines these methods and their applications in social work The book will be an enlightening read for social work scholars and those academic administrators involved in the evaluation of social work scholars as well as academic librarians that support social work programs

International Social Work Stefan Borrmann, Michael Klassen, Christian Spatscheck, 2007-04-05 The book focuses on three key issues of international social work on international dimensions of social problems and how social work practice can deal with these challenges on cultural issues social workers have to think of when practicing teaching and developing social work on an international level and finally on aspects of international approaches in social work education The authors are practicing and teaching social work in several countries and their personal and educational background allowed them to gain a profound experience on international social work This makes the authors not only writing about international perspectives but also from an international perspective

The Geometry of Care Debbie Indyk, 2014-05-12 Connect multiple resources to form effective strategies to deal with AIDS An effective strategy to deal with the AIDS epidemic is to have a wide range of scientists clinicians front line workers and clients distribute theory care and resource knowledge geometrically through all levels The Geometry of Care Linking Resources Research and Community to Reduce Degrees of Separation Between HIV Treatment and Prevention shows how to link bottom up and top down approaches to advance care services resources training theory and policy analysis Leading authorities draw upon behavioral and organizational theory to discuss the development of the frameworks necessary to effectively disseminate knowledge to benefit those needing care and to protect the community from further risk The

Geometry of Care builds a powerful case for the development of sustained links among academic resources and the community. Practical strategies are provided to set up a dynamic response framework to integrate the latest advances in treatment and prevention. The first section focuses on System and Program Level Geometry, the second on Patient and Provider Level Geometry. This is the book that shows how to meet the challenge to effectively understand, diagnose, treat, and prevent AIDS simultaneously on multiple fronts. Topics in *The Geometry of Care* include expanding strategic care to include patient, community, and medical centers; the assessment, dissemination, and integration of new advances; the bottom up development of links among providers, systems, and settings; increased communication through the network of generalists and specialists within hospitals; examples of infrastructure building at a family health service, a medical center based AIDS center, and a home based ambulatory care program; how sustained setting site relationships help to foster customized interventions serving clients better by tracking them through data management; integration of prevention and treatment for clients dealing with multiple co-morbidities; forging links between Western and traditional medicine; tailoring prevention strategies to fit the individual; shifting the locus of care to the HIV positive individual; an inter-organizational approach to supporting patient-provider interaction; understanding barriers to adherence; HIV as a family disease; and the geometry of care as a family issue. The need for partnership between patient and primary care provider; individuals with HIV and their instrumental role in prevention and transmission; much, much more. *The Geometry of Care* is a unique horizon-expanding book that is perfect for community workers, community activists, public health professionals, HIV clinical providers, adherence specialists, applied sociologists, and other practitioners dedicated to finding ways to provide the best in care.
