Socially Responsive Organizations & the Challenge of Poverty Milenko Gudi?,Al Rosenbloom,Carole Parkes,2017-09-08 This book provides a combination of case studies and current action research describing how businesses and civil society organizations are working to alleviate poverty in local and global communities It intends to provide conceptual and research rationales for why management education and management institutions must address the issue of poverty The book responds to one of the major findings from the research of the PRME Working Group on Poverty that the topic of poverty still lacks a strong business case for management educators and program institutional administrators The distinctive features of this book are that it 1 includes examples of small and medium sized SME businesses 2 deals with the issue of poverty as a human rights violation 3 explores the issue of absolute versus relative poverty 4 deals with leadership challenges in organizations committed to poverty alleviation and 5 discusses the issues in terms of management education s responsibility for setting new management research institutional and intellectual agendas The first of two books to be produced by the PRME Working Group on Poverty Socially Responsive Organizations and The Challenge of Poverty aims to provide both researchers and practitioners with the most wide ranging coverage yet published on how business can be a positive force in alleviating poverty and how management education needs to adapt to this increasingly crucial prerogative

Perfidies of Power: India in the New Millennium ,
Multidimensional Poverty Measurement Udaya Wagle,2009-04-05 Conceptualization and measurement of poverty have traditionally relied on purely economic approaches with income or consumption as the only indicator Multidimensional approaches have increasingly been used to understand poverty but have yet to be fully operationalized This book uses factor analysis and structural equations modelling to develop a multidimensional framework that integrates capability and social inclusion as additional poverty indicators The empirical relevance of this methodological contribution is demonstrated through its application in the United States and Nepal The proposed approach not only helps to identify different categories of the poor but also to more accurately target resources and policies of poverty alleviation The book will therefore be an important reference for professionals in development agencies as well as for poverty and policy researchers

The Contract of Employment Alan Bogg, Mark Freedland, 2016 The contract of employment is the central legal institution of modern English employment law It provides the foundation upon which most statutory employment rights are constructed it provides a conduit for the implementation of norms negotiated in collective bargaining and it continues to provide a contractual structure for the terms and conditions of employment for a significant proportion of the working population The Contract of Employment provides the most ambitious and comprehensive treatise on the theoretical and doctrinal aspects of the English contract of employment in the common law world Under the general editorship of Professor Mark Freedland the text has been produced by a team of world leading experts in employment law Part I examines the theoretical context to the contract of employment studying its structure and development from a wide variety of theoretical and comparative perspectives Part II provides an exposition and analysis of the doctrinal aspects of the contract of employment The coverage of The Contract of Employment is unrivalled in its depth detail and sophistication The legal analysis is always informed by a keen sense of the modern labour market context of the contract of employment and it is sensitive to contemporary challenges such as precariousness the interaction with migration law the role of legislation in the contract of employment and the decline of

collective bargaining It will be the principal reference point for the practitioners judges and academics concerned with the contract of employment as a legal category both nationally and internationally Social Exclusion Amartya Sen,2000 This paper is being issued to promote discussion of social development issues that influence development and poverty reduction It is generally recognized that poverty has both material and non material dimensions Because of their obvious tangibility many development practitioners find it easier to understand and address the material dimensions of poverty **Conversations and Transformations** Ananta Kumar Giri,2002-01-01 In this intriguing new book Indian social theorist Ananta Kumar Giri issues a stirring call for scholars of contemporary social theory and practice to grapple with late modernity s most pressing social and political issues Giri counterposes Western thought with Indian social theory in a work that ranges across an array of Indian texts and ideas hitherto ignored by Western scholarship Included along with the mainstays of Indian intellectual thought like Gandhi and Sri Aurobindo are lesser known Indian social theorists economists sociologists and essayists who argue for transcendence of self interest social responsibility and political renewal Thoughtfully argued and lucidly written this work offers the reader a genuine transdisciplinary learning experience going beyond European ethnocentrism to make social theory a truly global conversation Handbook of Equality of Opportunity ,2024-07-12 This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation
