These Kids Kysa Nygreen, 2013-05-07 Few would deny that getting ahead is a legitimate goal of learning but the phrase implies a cruel hierarchy a student does not simply get ahead but gets ahead of others In *These Kids* Kysa Nygreen turns a critical eye on this paradox Offering the voices and viewpoints of students at a last chance high school in California she tells the story of students who have in fact been left behind Detailing a youth led participatory action research project that she coordinated Nygreen uncovers deep barriers to educational success that are embedded within educational discourse itself Struggling students internalize descriptions of themselves as at risk low achieving or troubled and by adopting the very language of educators they also adopt its constraints and presumption of failure Showing how current educational discourse does not ultimately provide an adequate vision of change for students at the bottom of the educational hierarchy she levies a powerful argument that social justice in education is impossible today precisely because of how we talk about it Activist Identity Development of Transgender Social Justice Activists and Educators Ksenija Joksimović, 2020-03-02 *Activist Identity Development of Transgender Social Justice Activists and Educators* introduces an anti oppressive critical and intersectional

Harrison, 2013-07-15 Tools and strategies to foster transformative change for social justice Many believe that social justice education is simply the new politically correct term for diversity focused intervention or multiculturalism The true definition however is more complex nuanced and important to understand Higher education today needs clarity on both the concept of social justice and effective tools to successfully translate theory into practice In *Advancing Social Justice Tools Pedagogies and Strategies to Transform Your Campus* Tracy Davis and Laura M Harrison offer educators a clear understanding of what social justice is along with effective practices to help higher education institutions embrace a broad social justice approach in all aspects of their work with students both inside and outside of the classroom Theoretical philosophical and practical the book challenges readers to take a step back from where they are do an honest and unvarnished assessment of how they currently practice social justice rethink how they approach their work and re engage based on a more informed and rigorous conceptual framework The authors begin by clarifying the definition of social justice as an approach that examines and acknowledges the impact of institutional and historical systems of power and privilege on individual identity and relationships Exploring identity development using the critical lenses of history and context they concentrate on ways that oppression and privilege are manifest in the lived experiences of students They also highlight important concepts to consider in designing and implementing effective social justice interventions and provide examples of effective social justice education Finally the book provides teachers and practitioners with tools and strategies to infuse a social justice approach into their work with students and within their institutions *Is Everyone Really Equal?* Özlem Sensoy, Robin DiAngelo, 2015-04-26 This practical handbook will introduce readers to social justice education providing tools for developing critical social justice literacy and for taking action towards a more just society Accessible to students from high school through graduate school this book offers a collection of detailed and engaging explanations of key concepts in social justice education including critical thinking socialization group identity prejudice discrimination oppression power privilege and White supremacy Based on extensive experience in a range of settings in the United States and Canada the authors address the most common stumbling blocks to understanding social justice They provide recognizable examples scenarios and vignettes illustrating these concepts This unique resource has many user friendly features including definition boxes for key terms stop boxes to remind readers of previously explained ideas perspective check boxes to draw attention to alternative standpoints a glossary and a chapter responding to the most common rebuttals encountered when leading discussions on concepts in critical social justice There are discussion questions and extension activities at the end of each chapter and an appendix designed to lend pedagogical support to those newer to teaching social justice education Sensoy

and DiAngelo's book sings with insight, clarity, and humanity. This is a brilliant primer to help us consider what it means to think critically and to act for justice. Bill Bigelow, Curriculum editor, *Rethinking Schools* magazine, commends the direction of this book that addresses concepts such as social and institutional power, socialization, and oppression rather than framing social and political inequality as the consequences of behavioral problems and cultural misunderstandings. The approach the authors have taken supports teachers and their students in rethinking the ways in which the problems of inequality have been normalized as everyday practices. The book will help teachers to rethink inequality in systemic terms and to find opportunities for taking action at any moment.

Carol Schick, Associate Professor, Faculty of Education, University of Regina: The most accessible book on social justice I have ever read. The authors speak truth to power and in language we can all understand. I can't wait to use this text. The authors demonstrate that important concepts about social justice and political change can be both understandable and engaging. This is a huge contribution to the field.

Mara Sapon-Shevin, Professor, School of Education, Syracuse University: This timely book offers a reader-friendly, unflinching approach to answering those questions on social justice that people are often afraid to ask. The authors provide clear definitions, recognizable examples, robust counterpoints, and thought-provoking activities. All critical educators need to get this text in the hands of their students.

Educating for Social Justice and Inclusion in an African Context Nithi Muthukrishna, 2008. The proposed book moves away from a special education course reflecting a broad consideration of social justice and inclusion that encompasses a variety of concerns about the lived experience of domination, oppression, and injustice and seeks to understand the complex intersections of a number of often overlapping categories of social identity and conflict, including cultural, ethnic, and racialised identities, gender, sexual orientation, class, and disability.
