Globalization as Evolutionary Process George Modelski, Tessaleno Devezas, William R. Thompson, 2007-12-20 The term globalization has gained widespread popularity yet most treatments are either descriptive and or focused on changes in economic interconnectivity In this volume the concept is seen in broader terms as leading international experts from a range of disciplines develop a long term analysis to address the problems of globalization The editors and contributors develop a framework for understanding the origins and trajectory of contemporary world trends constructing testable and verifiable models of globalization They demonstrate how the evolutionary approach allows us to view globalization as an enterprise of the human species as a whole focusing on the analytical problem of global change and the rules governing those changes The emphasis is not on broad based accounts of the course of world affairs but selectively on processes that reshape the social of the human species the making of world opinion and the innovations that animate these developments Chapters are clustered into four foci One emphasizes the interpretation of globalization as an explicitly evolutionary process A second looks at

historical sequences of such phenomena as population growth or imperial rise and decline as processes that can be modeled and not purely described The third cluster examines ongoing changes in economic processes especially information technology A final cluster takes on some of the challenges associated with forecasting and simulating the complexities of globalization processes This innovative and important volume will be of interest to students and scholars across the social sciences concerned with the phenomenon of globalization

Canadian Journal of Zoology , 2002 Resources in Education , 1991 Sustainable Ageing Nestor Asiamah, Hafiz T.A. Khan, Whitney Nesser, Frank Frimpong Opuni, Alex Siu Wing Chan, 2024-10-26 This book uniquely operationalizes sustainable ageing as a concept for reimagining ways by which 1 social and health threats i.e climate change events extreme industrialization infectious disease outbreak and war can constrain the implementation of healthy ageing campaigns or limit their outcomes and 2 potential transdisciplinary strategies can be rolled out to optimize healthy ageing through the campaigns in contexts experiencing the threats The United Nations Decade of Healthy Ageing 2021 2030 initiative drives

major healthy ageing campaigns and encapsulates 10 initiatives for enabling people to maintain health as they age. Worsening social and health threats are however hindering the implementation of the campaigns. Consequently, healthy ageing may not be achieved or sustained even in age-friendly contexts experiencing crises. Scholars agree these threats will adversely impact public health and an inclusive multidisciplinary approach to healthy ageing is necessary amidst the threats. This book provides an understanding of how healthy ageing should be framed and approached through the campaigns in a world experiencing crises. Among the topics covered are Psychology of Ageing in Place, Amidst Health and Social Threats, Perspectives on the Decade of Healthy Ageing, Climate Change Adaptation for Healthy Ageing, Research Practice Gap, Impact on Campaigns and Mitigation Strategies, Human Development Pathways for Empowering Older Adults, A Decade of Healthy Ageing, Perspective Initiatives to Fight Ageism, Neglect and Elderly Abuse During Crises, A Healthy Ageing Perspective, Sustainable Ageing, Reimagining Healthy Ageing Through the Lens of Flagship Campaigns. This is a timely publication with broad appeal. Each chapter provides empirical evidence or models for improving stakeholders' understanding of campaign-related healthy ageing programmes, how the programmes are affected by the threats, and what can be done to achieve the core goals in contexts experiencing threats. Students, lecturers, and researchers can use the book as a research guide, whereas public health professionals and organizations can use it to develop or alter policies. Researchers in a wide range of disciplines can design studies based on models and insights from the book.
