one of the most rapidly growing demographic groups in the United States. Barriers to their successful engagement include biases and assumptions about men and fathers, a lack of father-friendly policies and practices in the field, limited training on how to work with fathers, and relatively limited father-inclusive social work research until recently. This book addresses these barriers. It is a guide to social workers in their efforts to better serve men as parents and does so from an ecological and systems perspective. Multiple case examples and practical tools are provided, as well as specific content on major social service systems. Topics explored include Father Engagement, Organizational Father-Friendly Assessments, Interventions with Fathers, Setting the Course for Future Theory Research, and Practice with Fathers. *Social Work Practice with Fathers: Engagement, Assessment, and Intervention* is a book that could be folded into foundation courses in social work or used by practitioners in the field. It is an essential text for graduate students in social work, psychology, sociology, child development, allied health, and similar disciplines and professions, and a go-to resource for helping professionals. Practitioners such as social workers, psychologists, and licensed professional counselors, advanced undergraduate students in these disciplines and professions, also will find the text useful in their studies and work. *Social Work Reclaimed* Steve Goodman, Isabelle Trowler, Eileen Munro, 2011-11-15 Reclaim Social Work. Chapters written by RSW social workers outline the methodological approaches used and demonstrate how it works in practice. *Social Work Practice with Families* Mary Patricia Van Hook, 2019-10-22 *Social Work Practice with Families* uses resiliency, a strength-based perspective, to frame a collaborative approach to assessment and treatment with families. In so doing, the text aims to help practitioners select a therapeutic model that effectively assists in addressing risk factors and promoting important resources. The book provides clear examples of the elements in a strength-affirming assessment and engagement process, discusses resiliency in terms of families belonging to various cultural groups and family structures, and identifies resiliency issues and implications for practice with families facing major problems. Including current evaluation research from the United States, Canada, and around the globe, the text serves as a helpful resource to undergraduate and graduate social work students and practitioners. **Social Work Practice with Children and Families** Francis K.
