**Sociology and Modern Social Problems** Charles Abram Ellwood, 1919 *Sociology and Modern Social Problems (Classic Reprint)* Charles A. Ellwood, 2017-09-15 Excerpt from Sociology and Modern Social Problems This book was originally written as an elementary text in sociology for use in high schools colleges and reading circles where it is desired to combine the study of sociology with a study of current social problems on the one hand and to correlate it with a course in economics on the other The generous reception and wide use which the book has enjoyed since its publication seem to indicate that there is a demand for a simple concrete text in sociology in which methodological discussions are reduced to a minimum and the facts are drawn as far as possible from contemporary social life About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Sociology and Modern Social Problems* Charles A. Ellwood, 2019-11-22 In *Sociology and Modern Social Problems* Charles A Ellwood presents a comprehensive examination of the pressing social issues of his time through the lens of sociological theory This seminal work intricately weaves empirical findings with philosophical insights offering a clear narrative that probes into the complexities of contemporary life Ellwood s style is characterized by a rigorous yet accessible approach making sociology s frameworks relevant to the broader public discourse while also situating his analysis within the burgeoning American social science movement of the early 20th century Charles A Ellwood a prominent figure in early American sociology was deeply influenced by the rapidly changing social landscape marked by urbanization industrialization and mass immigration His academic background which encompassed philosophy and history equipped him with a multidisciplinary perspective that enriched his exploration of societal issues Ellwood s commitment to bridging the gap between theory and practice is evident in this work reflecting his desire to make sociology a tool for social reform and improved understanding of human behavior This book is essential reading for anyone interested in the intersection of sociology and social issues offering timeless

insights that remain relevant today Ellwood's work challenges readers to reflect on their own societal context and encourages informed engagement with the ongoing social challenges that define modern life

**Sociology and Modern Social Problems** Charles A. (Charles Abram) Ellwood, 2018-06-27 Sociology and Modern Social Problems By Charles A. Charles Abram Ellwood The word society is used scientifically to designate the reciprocal relations between individuals More exactly and using the term in a concrete sense a society is any group of individuals who have more or less conscious relations to each other We say conscious relations because it is not necessary that these relations be specialized into industrial political or ecclesiastical relations Society is constituted by the mental interaction of individuals and exists wherever two or three individuals have reciprocal conscious relations to each other Dependence upon a common economic environment or the mere contiguity in space is not sufficient to constitute a society It is the interdependence in function on the mental side the contact and overlapping of our inner selves which makes possible that form of collective life which we call society Plants and lowly types of organisms do not constitute true societies unless it can be shown that they have some degree of mentality On the other hand there is no reason for withholding the term society from many animal groups These animal societies however are very different in many respects from human society and are of interest to us only as certain of their forms throw light upon human society We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

Ellwood,2014-11-11 rudiments of morality of government of religion and even of industry and knowledge must be learned by the child in the family group If the child fails for example to learn morality to get moral

standards and ideals from his family life he stands but poor chance of getting them later in society Again if the child fails to learn what law is and to get proper ideals of the relation of the citizen to the state in his family life there are good prospects of his being numbered among the lawless elements of society later In the family we repeat the child first experiences all the essential relations of society learns the meaning of authority obedience loyalty and all the human virtues Moreover the family life furnishes the moral and religious concepts which human society has set before it as its goal The ideal of human brotherhood for example is manifestly derived from the family life so also the religious idea of the Divine Fatherhood If a nation s family life fails to illustrate these concepts it is safe to say that they will not have great influence in society generally The nation whose family life decays therefore rots at the core dries up the springs of all social and civic virtues The Family and Industry From what has been said in general terms it is evident that the family has a very important relation to the industrial activities of society and industry a very important bearing upon the family Primitively all industry centered in the family Modern industry as has been well said is but an enormous expansion of primitive housekeeping that is the preparation of food and clothing and shelter by the primitive family group for its own existence is the germ out of which all modern industry has developed The very word economics means the science or the art of the household In primitive communities and in newly settled districts the family often carries on all essential industrial activities It produces all the raw material manufactures the finished products and consumes the same But with the growth of complex societies there has come a great industrial division of labor and the family has delegated industrial activity after activity to some other institution until at the present time the modern family performs scarcely any industrial activities except the preparation of food for immediate consumption Even this however in modern cities seems about to be delegated to some
