String Quartet No 3 1971:

Compositional Process in Elliott Carter's String Quartets Laura Emmery, 2019-11-21 *Compositional Process in Elliott Carter's String Quartets* is an interdisciplinary study examining the evolution and compositional process in Elliott Carter's five string quartets. Offering a systematic and logical way of unpacking concepts and processes in these quartets that would otherwise remain opaque, the book's narrative reveals new aspects of understanding these works and draws novel conclusions on their collective meaning and Carter's place as the leading American modernist. Each of Carter's five string quartets is driven by a new idea that Carter was exploring during a particular period, which allows for each quartet to be examined under a unique lens and a deeper understanding of his oeuvre at large. Drawing on key ideas from a variety of subjects including performance studies, philosophy, music cognition, musical meaning and semantics, literary criticism, and critical theory, this is an informative volume for scholars and researchers in the areas of music theory and musicology. Analyses are supplemented with sketch, study, correspondence, text, manuscripts, and other archival sources from the Paul Sacher Stiftung, the Library of Congress, and the New York Public Library.

Polytempic Polymicrotonal Music Peter Alexander Thoenes, 2022-09-08 This book introduces polytempic polymicrotonality as a new musical aesthetic. It proposes music with more than one microtonal tuning system and discusses examples from the literature to give an historic framework showing that this tendency has been present throughout human musical history. Polytempo is a tool for which polymicrotonal structures can function in relief from its background, and it acts as a frame or ground structure that is multidimensional, akin to the advancement of perspective in Renaissance art. The book has historic significance as it is the only book of its category or genre in music that features polymicrotonality in music composition or production. It displays examples of music literature for musical precedence in this area, focusing on Charles Ives's *Universe Symphony* unfinished since 1925.

Music Album Ralph J. Blauvelt, 2014-10-04 *Music Album* documents Ralph Blauvelt's life as a composer from his last visual score and the beginnings of the performance ensemble VORTEX in 1980 to his most recent compositions. It continues the story of his first book *From Notation To Music*, which began with his first student works and ended with his last visual score. *Music Album* features Ralph Blauvelt's narrative about his music and the people and places in his musical life. He discusses the connections between his diverse compositions and traces recurring themes in his music. Blauvelt's narrative weaves through items from his collection of newspaper clippings, concert programs, program notes, reviews, letters, and contemporary journal entries. *Music Album* includes numerous photos of the composer's music.
