OE [publication] ,      **Reference Tools 1968-1969; a Bibliography Based on the Acquisitions of the Educational Materials Center** Caroline Stanley, 1969      World History of the Automobile Erik Eckermann, 2001-09-01 This book details the development of the automobile from its early beginnings to the present day With emphasis on the European historical perspective particularly the pioneering developments which occurred in Germany World History of the Automobile chronicles the early vehicles by Daimler Maybach and Benz the Mercedes Era the role of motor vehicles in World Wars I and II and the numerous technological and business revolutions of the second half of the 20th century      **History of the Electric Automobile** Ernest Henry Wakefield, 1993-08-01 History of the Electric Automobile covers the evolution from the first electric vehicles of the 1880s to the advances of today Beginning with early electric vehicle development in England France and the United States this book provides an in depth look at the so called golden age of electric vehicles 1895 1905 demonstrating the technological improvements and business risks of this era This history also explores the dead period of the 1930s 1940s and 1950s and the subsequent re birth of interest in electric vehicles in the early 1960s Events which have impacted the development of electric cars since then most notably the Electric Vehicle Act of 1976 are also examined The book also features an appendix section containing such information as a name table of American electric cars the Electric Vehicle Act of 1976 nostalgia and more A glossary and index are also included For more than a century nearly all seers who have predicted the role of electric vehicles in personal transportation have been wrong This book records what actually happened both within America and internationally Ernest H Wakefield      Colonel Albert Pope and His American Dream Machines Stephen B. Goddard, 2015-11-06 In the 1890s Colonel Albert A Pope was hailed as a leading American automaker That his name is not a household word today is the very essence of his story Pope s production methods as the world s largest manufacturer of bicycles led to the building of automobiles with lightweight metals rubber tires precision machining interchangeable parts and vertical integration The founder of the Good Roads Movement Pope entered automobile manufacturing while steam electricity and gasoline power were still vying for supremacy The story of his failed dream of dominating U S automobile production is an engrossing view into America s industrial history      **Haynes-Apperson and**

**America's First Practical Automobile** W. C. Madden, 2003 While Elwood Haynes and the Apperson brothers are not as well known as Henry Ford Ransom Olds and other famous automobile manufacturers their contributions to the automotive industry are just as significant They were responsible for one of the first functioning automobiles if not the first in the United States After building their automobile in 1894 the three men formed the Haynes Apperson Automobile Company in Kokomo Indiana one of the first car manufacturing companies in the country Three years after incorporation a dispute over money caused the partnership to split up and Edgar and Elmer Apperson formed their own company Both companies lasted until the mid 1920s This book is a history of these automotive pioneers and their companies the Haynes Apperson Automobile Company the Haynes Automobile Company and the Apperson Brothers Automobile Company It is richly illustrated with photographs of the factories automobiles personalities and advertisements

**Elcar and Pratt Automobiles** William S. Locke, 2000-01-01 A surprisingly little known marque today Elcar once ranked among the finest vehicles on American roads Built to exacting standards in Elkhart Indiana an Elcar could compete head to head on the basis of performance quality or price with the products of much larger manufacturers Ultimately done in by weak distribution and the ravages of the Depression Elcar today stands as an example of an ambitious company that transformed itself successfully if temporarily from a maker of buggies and harnesses into a respected car manufacturer in the early days of the automotive age This remarkably exhaustive history researched over several decades from all available sources including interviews with former Elcar employees details every Elcar model and the Pratt vehicles that preceded them as well as the personalities behind the cars Extensive appendices provide a complete model history with specifications a full corporate chronology an illustrated accounting of all Elcars and Pratts known to survive whole or in part today a roster of company employees a descriptive list of all ads and brochures ever produced by the company and a wealth of other data that can be found nowhere else Lavishly illustrated and surpassingly thorough this book is a well of information on a significant but forgotten line of automobiles
