Everyday Religion Nancy T. Ammerman,2007 Social scientists sometimes seem not to know what to do with religion In the first century of sociologys history as a discipline the reigning concern was explaining the emergence of the modern world and that brought with it an expectation that religion would simply fade from the scene as societies became diverse complex and enlightened As the century approached its end however a variety of global phenomena remained dramatically unexplained by these theories Among the leading contenders for explanatory power to emerge at this time were rational choice theories of religious behavior Researchers who have spent time in the field observing religious groups and interviewing practitioners however have questioned the sufficiency of these market models Studies abound that describe thriving religious phenomena that fit neither the old secularization paradigm nor the equations predicting vitality

only among organizational entrepreneurs with strict orthodoxies In this collection of previously unpublished essays scholars who have been immersed in field research in a wide variety of settings draw on those observations from the field to begin to develop more helpful ways to study religion in modern lives The authors examine how religion functions on the ground in a pluralistic society how it is experienced by individuals and how it is expressed in social institutions Taken as a whole these essays point to a new approach to the study of religion one that emphasizes individual experience and social context over strict categorization and data collection     *Majority World Theologies* Allen Yeh, Tite Tienou, 2018-10-01 Theology to the Ends of the Earth and Back Again As Christianity's center of gravity has shifted to the Majority World many younger churches in Africa Asia and Latin America are now coming of age With this maturing comes the ability to theologize for themselves not simply to mimic what they have been taught from the West As theology is an attempt to articulate through human language culture and contexts the timeless truths of the eternal and transcendent God Majority World churches have much to offer the West and the world as they contribute to a greater understanding of God discipleship and mission Within this volume is an eclectic and fascinating sampling of theologizing from around the world diverse not just in context but in content dealing with everything from Christian education to engaging Buddhists with the gospel to engagement with Santería to contextualizing native dance As Christ's message has gone to the ends of the earth it has been received but also incorporated synthesized and rebirthed in new and exciting ways that will benefit us all wherever we live and serve
