Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable *The Tate Gallery* Tate Gallery,1984 The Concise New Makers of Modern Culture Justin Wintle,2008-11-28 A Who's Who of Western culture from Woody Allen to Emile Zola Containing four hundred essay style entries and covering the period from 1850 to the present The Concise New Makers of Modern Culture includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley with John Ruskin is Salman Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping rubs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin With its global reach The Concise New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing as well as an index of names and key terms Motherhood and War D. Cooper,C. Green,2024-03-29 This book is the first introduction to Western art that not only considers how choice of materials can impact form but also how objects in different media can alter in appearance over time and the role of conservators in the preservation of our cultural heritage The first four chapters cover wall and easel paintings sculpture drawings and prints from the late Middle Ages to the present day They examine with numerous examples how these works have been produced how they might have been transformed and how efforts regarding their preservation can sometimes be misleading or result in controversy The final two chapters look at how photography new techniques and modern materials prompted innovative ways of creating art in the twentieth century and how the rapid expansion of technology in the twenty first century has led to a revolution in how artworks are constructed and seen generating specific challenges for collectors curators and conservators alike This book is primarily directed at undergraduates interested in art history museum studies and conservation but will also be of interest to a more general non specialist audience **Makers of Modern Culture** Justin Wintle,2002 This volume provides lively and clearly written expositions of those figures who have done most to shape our views in the period since 1914 Music cinema drama art fiction poetry and philosophy are just some of the fields covered **Writing the Pre-Raphaelites** Tim Barringer,2017-07-05 This vibrant collection of essays claims that a complex network of texts by critics biographers and diarists established the credibility and influence of the Pre Raphaelite movement Throughout the twentieth century Modernist taste failed to acknowledge the achievement of oppositional groupings such as

the Pre Raphaelites The essays collected here however reveal that the British group anticipated later avant gardes by using the written word to configure for itself a radical artistic identity Public and critics alike were scandalized by the radicalism of Pre Raphaelite painting its unflinching portrayal of historical figures and of contemporary life and its irreverent attitude to artistic convention Pre Raphaelitism s innovations were not confined to style new forms of artistic identity and behaviour were explored As the contributors interrogate the texts through which Pre Raphaelitism was constructed they demonstrate that the movement s wide influence as a cultural phenomenon derived from the interplay between exhibited works and critical discourse Applying a range of sophisticated methodologies from the fields of literary studies art history and cultural studies these interdisciplinary essays uncover the neglected role of texts in the success of the Pre Raphaelite rebellion and argue in favor of a new centrality for this movement in the history of nineteenth century European culture Bulletin - Museums of Art and Archaeology, University of Michigan University of Michigan.
