The Condottieri Geoffrey Trease, 1970-01-01 **The Condottieri** Geoffrey Trease, 1971 *The Age of Wars of Religion, 1000-1650* Cathal J. Nolan, 2006-04-30

The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

Private Military and Security Companies (PMSCs) and the Quest for Accountability George Andreopoulos, John Kleinig, 2019-03-18

Private Military and Security Companies PMSCs have constituted a perennial feature of the security landscape Yet it is their involvement in and conduct during the ongoing wars in Iraq and Afghanistan that have transformed the outsourcing of security services into such a pressing public policy and world order issue The PMSCs ubiquitous presence in armed conflict situations as well as in post conflict reconstruction their diverse list of clients governments in the developed and developing world non state armed groups intergovernmental and non governmental organizations and international corporations and in the context of armed conflict situations involvement in instances of gross misconduct have raised serious accountability issues The prominence of PMSCs in conflict zones has generated critical questions concerning the very concept of security and the role of private force a rethinking of essential governmental functions a rearticulation of the distinction between public private and global local in the context of the creation of new forms of security governance and a consideration of the relevance as well as limitations of existing regulatory frameworks that include domestic and international law in particular international human rights law and

international humanitarian law This book critically examines the growing role of PMSCs in conflict and post conflict situations as part of a broader trend towards the outsourcing of security functions Particular emphasis is placed on key moral legal and political considerations involved in the privatization of such functions on the impact of outsourcing on security governance and on the main challenges confronting efforts to hold PMSCs accountable through a combination of formal and informal domestic as well as international regulatory mechanisms and processes It will be of interest to scholars policymakers practitioners and advocates for a more transparent and humane security order This book was published as a special issue of Criminal Justice Ethics

Hamlet's Ghost James Cowan, 2015-09-04 Occasionally a man emerges from history without us knowing him Duke Vespasiano Gonzaga 1531-91 of Sabbioneta escaped the net of sixteenth century Italy its history of wars and conflicts to fashion a life that was uniquely different He set out to change the way urban man lived Importantly he was the first man to build a *Città ideale* Sabbioneta is the prototype of all planned cities of the modern era As a confidant of King Philip II of Spain and a traveller he quickly acquired a cosmopolitan worldview which led him to become a *uomo universale* It was in this capacity that he designed Sabbioneta as a genuine little Athens His life was fraught with tragedy however Not only did he suffer from syphilis but his personal troubles left him emotionally damaged The mysterious death of two wives including the beautiful Diana of Cardona forced him to find solace in the construction of his ideal city As nephew to the legendary Giulia Gonzaga and with her encouragement the Duke managed to forge a career as a poet bibliophile antiquarian *condottiero* urban planner and diplomat all against the backdrop of New World discovery the Protestant Reformation and the Inquisition This book reveals another fascinating story Vespasiano Gonzaga's link to Shakespeare's Hamlet Like the Prince of Denmark he reflects the emergence of our modern consciousness He was a true Renaissance man whose legacy remains with us to this day As a self-fashioned personality the Duke made every attempt to place himself at the forefront of events of his time His life tells us a great deal about how late Renaissance men exteriorised their inner world in a bid to achieve immortality
