readers with a background on life and politics in the United States in 1787 when Americans were in the midst of nation building The book also features a section with selections from contemporary letters essays novels conduct books and public documents which debate issues of the era ranging from the role of the arts *The Contrast* Donald Pippin,1984 **The Contrast** Royall Tyler,1920 **Gale Researcher Guide for: Royall Tyler's The Contrast and the Birth of American Drama** Michael D. MacBride, Gale Researcher Guide for Royall Tyler s The Contrast and the Birth of American Drama is selected from Gale s academic platform Gale Researcher These study guides provide peer reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research **Magic Words** Craig Conley,2008-10-01 Magic Words A Dictionary is a oneofakind resource for armchair linguists popculture enthusiasts Pagans Wiccans magicians and trivia nuts alike Brimming with the most intriguing magic words and phrases from around the world and illustrated throughout with magical symbols and icons Magic Words is a dictionary like no other More than sevenhundred essay style entries describe the origins of magical words as well as historical and popular variations and fascinating trivia With sources ranging from ancient Medieval alchemists to modern stage magicians necromancers and wizards of legend to miracle workers throughout time Magic Words is a must have for any scholar of magic language history and culture **Beyond Ethnicity** Werner Sollors,1987-10-29 This highly original study examines the role of ethnicity in American literature and what that literature has said and continues to say about our remarkably diverse culture Sollors focuses particularly on the conflict between descent and consent between the concern for one s racial ethnic and familial heritage and the conflicting desire to choose one s own destiny regardless of that heritage Grave and hilarious tender and merciless The book performs a public service Quentin Anderson **Literature in America** Peter Conn,1989-08-25 Professor Conn summarises the distinctive achievements of the American literary heritage from early 1600 s to late 1980 s [A Student's History of American Literature](#) William Edward Simonds,1909 **Manhood and the American Renaissance** David Leverenz,2019-06-30 In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history Manhood and the American Renaissance demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast patrician artisan and entrepreneurial He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism The male writers of the American Renaissance patrician almost without exception in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and

the rivalry for dominance they witnessed in the undeferential new men In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies He discerns different patterns in the works of Whitman with his artisan s background and Frederick Douglass who rose from artisan freedom to entrepreneurial power Emphasizing the interplay of class and gender Leverenz also considers how women viewed manhood He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe A bold and imaginative work Manhood and the American Renaissance will enlighten and inspire controversy among all students of American literature nineteenth century American history and the relation of gender and literature

**Transatlantic Literary Studies, 1660-1830** Eve Tavor Bannet, Susan Manning, 2011-12-08 The recently developed field of transatlantic literary studies has encouraged scholars to move beyond national literatures towards an examination of communications between Britain and the Americas The true extent and importance of these material and literary exchanges is only just beginning to be discovered This collection of original essays explores the transatlantic literary imagination during the key period from 1660 to 1830 from the colonization of the Americas to the formative decades following political separation between the nations Contributions from leading scholars from both sides of the Atlantic bring a variety of approaches and methods to bear on both familiar and undiscovered texts Revealing how literary genres were borrowed and readapted to a different context the volume offers an index of the larger literary influences going backwards and forwards across the ocean

**Standing Up, Speaking Out** Matthew R. Meier, Casey R. Schmitt, 2016-10-14 In recent decades some of the most celebrated and culturally influential American oratorical performances have come not from political leaders or religious visionaries but from stand up comics Even though comedy and satire have been addressed by rhetorical scholarship in recent decades little attention has been paid to stand up This collection is an attempt to further cultivate the growing conversation about stand up comedy from the perspective of the rhetorical tradition It brings together literatures from rhetorical cultural and humor studies to provide a unique exploration of stand up comedy that both argues on behalf of the form s capacity for social change and attempts to draw attention to a series of otherwise unrecognized rhetors who have made significant contributions to public culture through comedy

Adams-Campbell,2015-10-22 Feminist literary critics have long recognized that the novel s marriage plot can shape the lives of women readers however they have largely traced the effects of this influence through a monolithic understanding of

marriage *New World Courtships* is the first scholarly study to recover a geographically diverse array of eighteenth and nineteenth century novels that actively compare marriage practices from the Atlantic world. These texts trouble Enlightenment claims that companionate marriage leads to women's progress by comparing alternative systems for arranging marriage and sexual relations in the Americas. Attending to representations of marital diversity in early transatlantic novels disrupts nation-based accounts of the rise of the novel and its relation to the marriage plot. It also illuminates how and why cultural differences in marriage mattered in the Atlantic world and shows how these differences might help us to reimagine marital diversity today. This book will appeal to scholars of literature, women's studies, and early American history.
