The Of Love:

The Radicality of Love Srećko Horvat, 2016-01-11 What would happen if we could stroll through the revolutionary history of the 20th century and without any fear of the possible responses ask the main protagonists from Lenin to Che Guevara from Alexandra Kollontai to Ulrike Meinhof seemingly naive questions about love Although all important political and social changes of the 20th century included heated debates on the role of love it seems that in the 21st century of new technologies of the self Grindr Tinder online dating etc we are faced with a hyperinflation of sex not love By going back to the sexual revolution of the October Revolution and its subsequent repression to Che's dilemma between love and revolutionary commitment and to the period of 68 from communes to terrorism and its commodification in late capitalism the Croatian philosopher Srećko Horvat gives a possible answer to the question of why it is that the most radical revolutionaries like Lenin or Che were scared of the radicality of love What is so radical about a seemingly conservative notion of love and why is it anything but conservative This short book is a modest contribution to the current upheavals around the world from Tahrir to Taksim from Occupy Wall Street to Hong Kong from Athens to Sarajevo in which the question of love is curiously surprisingly absent

The Power of Love Bishop Michael Curry, 2018-10-30 Love is the way Love is the only way Those who follow in my way follow in the way of unconditional unselfish sacrificial love And that kind of love can change the world Bishop Michael Curry Two billion people watched Bishop Michael Curry deliver his sermon on the redemptive power of love at the royal wedding of Prince Harry and Meghan Markle now the Duke and Duchess of Sussex at Windsor Castle Here he shares the full text of the sermon plus an introduction and four of his favorite sermons on the themes of love and social justice The world has met Bishop Curry and has been moved by his riveting hopeful and deceptively simple message love and acceptance are what we need in these strange times

The Path of Love Becca Stevens, 2010-10-01 It's easy to get lost in the busyness of every day But taking a walk and discovering God's presence along the way will bring you back to where you need to be The Walking Bible Study a series of short readings and meditations is your field guide to learning more about Scripture as you travel through nature and life Wherever you walk take it along with you and follow the paths of God Walking changes us it can transport our spirits from being weighed down by life into the joy of God's presence Becca Stevens Each study consists of four sessions Sessions include prayer Scripture Becca's thoughts and stories questions to think about or discuss and activities The Path of Love The world was created when God took the two chaotic elements of the universe that do not allow life the deep and the darkness and encompassed them into a loving creation that is called Good The story of Love is rooted in creation and is so powerful that in its culminating act it rolls the stone away at the break of Easter morning

The Path of Love Ronald D. Cowen, 2015-02-05 The Buddha was a scientist Instead of using a microscope or a particle accelerator the Buddha used ESP He had several psychic powers that allowed him to perceive in detail the psychology of karma the evolution of consciousness and subatomic particles He discovered love and self love to be organizing principles that evolved

early in the history of intelligent consciousness especially with regard to feelings and emotions Every person has the deepest need to love and be loved He solved the mind body problem by perceiving the physical basis of intelligent consciousness These psychic powers are acknowledged in Hindu and Buddhist scriptures but extremely few people have them This book is essentially a meditation report written by someone who has them While this sounds like an invitation to return this book to the shelf in a bookstore it also documents in depth another report by a physicist Stephen Phillips who relates in comprehensive detail the relationship between modern superstring theory and extrasensory observation of the elements of the periodic table by Annie Besant and Charles Leadbeater of the Theosophical Society This strong connection between modern physics and psychic powers of the Buddha is a real challenge to both the modern scientist and the modern Buddhist

Law in the Courts of Love Peter Goodrich,2002-11 In the wake of current criticisms of the legal profession Peter Goodrich presents us with a radical alternative vision of the law He examines past legal systems offering up the possibility of a more humane system

The Redemption of Love Carrie A. Miles,2006-04-01 Competing answers to dilemmas involving love sex marriage and family scream to us from nearly everywhere The Redemption of Love reveals what the Bible has to say about these issues by applying the growing economic study of religion Using Genesis Jesus Paul and the Song of Songs Carrie Miles outlines a consistent description of biblical love throughout Scripture asserting that it is the only effective solution in today s battle to save marriage and family This book is a valuable tool for clergy and laypeople

The Origin of Humanness in the Biology of Love Humberto Maturana Romesín, Gerda Verden-Zöllner,2012-02-21 The central concern of this book is us human beings The authors basic question is How is it that we can live in mutual care have ethical concerns and at the same time deny all that through the rational justification of aggression The authors answer this basic question indirectly by providing a look into the fundamentals of our biological constitution concentrating on what they term emotioning that is the flow of emotions in daily life that guides the flow of the systemic conservation of a manner of living Maturana and Verden Z öller claim that the fundamental emotion that gave rise to humans as sapient languaging beings was love and that this remains our fundament even when other emotions become socially prevalent

The Phenomenology of Love and Reading Cassandra Falke,2018-05-31 The current revival of interest in ethics in literary criticism coincides fortuitously with a revival of interest in love in philosophy The literary return to ethics also coincides with a spate of neuroscientific discoveries about cognition and emotion But without a philosophical grounding this

new work cannot speak convincingly about literature's relationship to our ethical lives Jean Luc Marion's articulation of a phenomenology of love provides this philosophical grounding The Phenomenology of Love and Reading accepts Jean Luc Marion's argument that love matters for who we are more than anything more than cognition and more than being itself Cassandra Falke shows how reading can strengthen our capacity to love by giving us practice in love's habits attention empathy and a willingness to be overwhelmed Confounding our expectations literature equips us for the confounding events of love which Falke suggests are not rare and fleeting but rather constitute the most meaningful and durable part of our everyday life
