Potholes and Pavements Laura Laker, 2024-05-09 Just wonderful two wheels good Laura Laker brilliant Part travel diary part love poem to Britain's cycle network it's difficult not to be inspired by this fabulous book Jeremy Vine With a passion for both cycling and words there are few more qualified to paint a picture of the NCN's potential than Laura Laker Chris Boardman A unique journey around the UK's National Cycle Network and one journalist's quest to investigate the state of our country's cycling What if we were less reliant on our cars What if there were safe cycling paths to take us places instead What if those paths led to the next town the next village and the countryside beyond This was the dream of a group of Bristolian idealists in the 1970s when they founded Britain's National Cycle Network which now runs to nearly 13 000 miles across the country Journalist Laura Laker sets off on an odyssey around the UK to see where the NCN began and where it is now What has gone right and wrong with this piece of national infrastructure Why is it run by a charity whose CEO once admitted we've had enough of it being crap we need to fix it Laura lifts the lid on this maddening patchy and at times dangerous network and the similarly precarious politics and financing that make it what it is She discovers beauty friendship and adventure along the way from the Cairngorms to Cornwall from the Pennines to the South Wales coast On her mission to pin down what the NCN is and what it means to those who use it she also meets up with high profile travelling companions including Chris Boardman and Ned Boulting In a country where 71% of trips are less than five miles two thirds of Britons say they want to cycle more and doing so could help our climate health and wellbeing Laura is on a mission to see if we can make that dream a reality

The Rough Guide to Wales Catherine Le Nevez, Paul Whitfield, Mike Parker, 2009-05 This guidebook to Wales provides in depth coverage to everything from nightlife and rural cosmopolitanism to its crags and castles There are reviews on accommodation and restaurants to suit all budgets

Great British Plans Ian Wray, 2015-09-25 Can the British plan Sometimes it seems unlikely Across the world we see grand designs and visionary projects new airport terminals nuclear power stations high speed railways and glittering buildings It all seems an unattainable goal on Britain's small and crowded island and yet perhaps this is too pessimistic For the British have always planned and much of what they have today is the result of past plans successfully implemented Ranging widely from London's squares and the new city of Milton Keynes to High Speed One the motorways and the secret first electronic computers Ian Wray's remarkable book puts successful infrastructure plans under the microscope Who made these plans and what made them stick How does this reflect the defining characteristics of British government And what does that say about the individuals who drew them up and saw them through In so doing the

book casts refreshing new light on how big decisions have actually been made revealing the hidden sources of drive and initiative in British society as seen through the lens of plans past And it asks some searching questions about the mechanisms we might need for successful plans future in Britain and elsewhere Includes foreword by the Right Honourable the Lord Heseltine CH
